Performance Liner

SIZES

24.0 - 30.0 (Half Sizes Included)

First Degree Boots is proud to introduce the Stormtrooper ST2 Ski Boot. The Stormtrooper ST2 boots are fully functional sidecountry alpine boots geared for skiers looking for high performance and comfort. With a classic 3-piece shell design, 4 heavy duty buckles, and walk mode capability, this boot will serve both in and out of bounds skiers looking for powder. The walk mode buckle enables full ankle flexing, which is crucial for walking to and from the lifts, or hiking along ridges. Plus, there are 5 forward lean options to suit any skier in any condition.

The ST2 has a medium hard flex of 130.

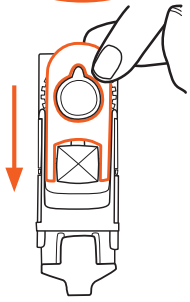

ST2 TF (DEL 141)	511410-1000/9110	black	24.0 - 30.0
ST2 PF	511411-1000/9110	black	24.0 - 30.0

WALK MECHANISM

N°1

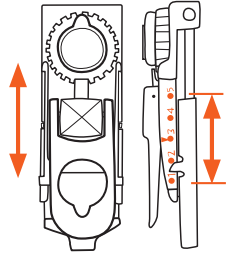

5-STEP FORWARD LEAN MECHANISM

This mechanism provides the maximum of comfort and adjustment possibilities. Five forward lean positions are easily adjustable, additionally there is a walk mode. See the diagrams below:

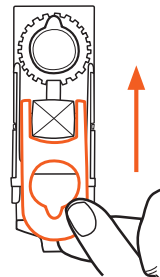

STEP 1

Unlock the system by pulling down the mechanism.

STEP 2

Now the top part of the shell moves independently from the lower part. You are now in walk mode.

STEP 3

Just before riding, adjust your forward lean angle by choosing one position among the five available. Lock it by lifting up the mechanism.

VIBRAM OUTSOLE

N°2

NEW VIBRAM SOLE (DIN COMPATIBLE)

Replacable Vibram-Sole offers perfect grip on and off piste.

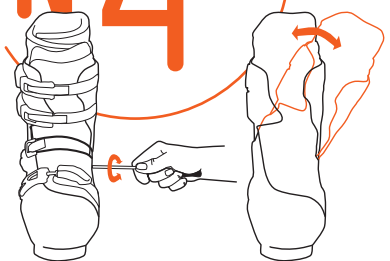

BOOSTER

N°3

LATERAL CANTING

N°4

With the help of the screwed lateral canting, you can adjust the lateral angle of the top part of the shell. Unscrew the lateral canting and choose the angle wanted.

LINER TECHNOLOGY

N°5

DEL 141 THERMOFLEX LINER

- 100% thermo mouldable liner
- Extremely light weight and high insulating
- Made in Europe
- Performance Wrap construction

PERFORMANCE LINER

- Powerstrap
- Highback and tongue reinforcement for perfect support and performance
- Extra comfort padding on collar and tongue
- Flexible toebox

LINER TECHNOLOGY

There are two liner options to choose for preorder. DEL 141 is a made in Europe thermo mouldable liner that can be molded 100% to your feet. The Performance flex liner offers perfect out of the box fit.

A STORM BECKONS.

One of the only things that can bring a skier in an epic day on the mountain is painful feet.

First Degree boots make ultra comfortable, high-performance alpine boots designed to bring the feeling back to skiing.

With an easy to enter, 3 piece shell, 5 forward lean options to suite the skiers style, combined with an after-market liner and insole, this boot is ready to take on any storm, right out of the box.

A walk mode enables the skier to navigate the ascent with comfort and control, ready to tackle your next line with the flip of a switch.

So, whether skiing, skinning, bootpacking or aprèsing, First Degree Boots has your feet covered.

A storms' a comin – are you ready?
