WORKBOOK 2019/20

# #snowboardingisourID

The love of snowboarding—it's as simple as that. Whether you spend your days lapping the local rope tow, sessioning the streets, or skinning into the unknown, this passion unites and defines us. And since the beginning, it's served as our foundation. After all, Deeluxe is driven by a tight-knit crew of dedicated riders. As part of this crew, our team riders have always been essential to Deeluxe's vision and evolution. They both challenge and inspire us—and for this, we're forever grateful.

We're proud to dedicate this year's collection to our team. From the groms who spend their days mobbing the local hill to the pros stacking footage across the globe, we're honored to call these riders our friends. Through the years, their support and guidance have played a crucial role in developing and refining our boots—especially the ID. No wonder it's emerged as a team favorite and an integral part of each year's collection. To showcase and celebrate their contributions, we're unveiling a special version of the boot for the 2019-2020 season—the ID Bloodline. Armed with a red colorway, the boot gives a nod to the blood, sweat, and tears that our riders put into pursuing their passion each and every season. It's a passion we all share.

At Deeluxe, we're committed to enhancing your time on the snow. That's why we work relentlessly to build the best boots for every riding style and type of terrain. Inspired and original, these boots deliver the comfort and performance you need—be it on the bunny hill, in the park, or during a first descent. No matter how or where you ride, we're right with you, sharing every high five and pow slash that shapes your journey. Thanks for riding with us.

# BACKCOUNTRY SERIES

IF YOUR DREAMS ARE FILLED WITH FRESH LINES, DEEP SNOW, AND UN-CHARTED TERRAIN, PARTNER UP WITH THE BACKCOUNTRY SERIES. AS RUGGED AS THEY ARE DEPENDABLE, THESE BOOTS STEM FROM YEARS OF TIGHT COLLABORATION WITH XAVIER DE LE RUE. GUIDED BY THE BELIEF THAT THE ASCENT SHOULDN'T BE AN AFTER-THOUGHT, THEY'RE EQUALLY AT HOME SKINNING, HIKING, AND RIDING. AND THANKS TO DETAILS LIKE A VIBRAM EAST RIDGE SOLE, THEY OFFER UNRIVALED PERFORMANCE—EVEN IN THE MOST DEMANDING TERRAIN AND CONDITIONS. FORGE YOUR OWN PATH WITH DEELUXE'S BACKCOUNTRY SERIES.

BACKCOUNTRY ICON

# Spark XV —black

# EVOLUTION SERIES

PROGRESSION REQUIRES FORGING YOUR OWN PATH—AND HAVING FAITH IN YOUR OWN PERSPECTIVE. AT DEELUXE, WE'VE ALWAYS HELD FAST TO THIS BELIEF WHILE THINKING OUTSIDE THE BOX. DAY-IN AND DAY-OUT, WE DRAW UPON A BLEND OF PASSION, CREATIVITY, AND DEDICATION TO ENHANCE YOUR TIME ON THE SNOW. OUR COMMITMENT TO PROGRESSION IS ESPECIALLY EVIDENT IN OUR EVOLUTION SERIES. THIS COLLECTION SHOWCASES BOOTS THAT ARE AS ORIGINAL AS THEY ARE REFINED, INCLUDING THE WORLD'S FIRST POWSURFING BOOT—THE FOOTLOOSE. DROP INTO SOMETHING DIFFERENT—AND NEVER LOOK BACK—WITH THE EVOLUTION SERIES.

— TAKE BACK THE SLOPES —

# GROUND CONTROL

The Deeluxe Ground Control revolutionizes carving. This fresh design provides the power and precision of a hardboot—while still delivering the enduring comfort that makes a softboot so appealing. Developed with input from both our alpine and free-style team riders, this boot delivers the best of both worlds. Own the slopes with the Ground Control.

# AFTERHOUR SERIES

WHEN THE SUN GOES DOWN, DEELUXE'S COMMITMENT TO CRAFTSMANSHIP AND STYLE REMAINS AS STRONG AS EVER. FOR PROOF, LOOK NO FURTHER THAN THE AFTERHOUR COLLECTION. THANKS TO THEIR CLASSIC DESIGNS AND GENUINE LEATHER, THESE APRÈS BOOTS AND SHOES ARE PERFECT FOR TRAVERSING TOWN OR KICKING BACK AT THE BAR. EACH YEAR, WE'VE EXPANDED THE COLLECTION, ENSURING RIDERS CAN DEPEND ON DEELUXE FROM FIRST CHAIR TO LAST CALL.

# Prime —leather

ITEM - NR. 561600-1000/9309

# Royal —black

ITEM - NR. 561800-1000/9110

Step into winter with the Prime. This premium winter boot features genuine oiled leather and a warm fleece lining. Its Vibram sole provides plenty of traction when exploring snowy streets. And as its name suggests, the Prime offers nothing but the best.

AVAILABLE SIZES: 5.0-7.0 Full Sizes Only | 7.5-13.0 Half Sizes Available

As the newest addition to the Afterhour collection, the Royal is ready to ascend the throne. With a clean appearance and embossed detailing, this après boot delivers no shortage of style. Whether trekking through town or simply kicking back after shredding, the Royal is fit for a king.

AVAILABLE SIZES: 5.0-7.0 Full Sizes Only | 7.5-13.0 Half Sizes Available

# Classic —mud

ITEM - NR. 561601-1000/9310

For the Classic, Deeluxe collaborated with T.J. Schneider to move its craftsmanship—and game—beyond the snow.

**AVAILABLE SIZES:**

5.0;7.0;8.0 Full Sizes Only  
8.5-12.5 Half Sizes Available

# Classic —hash sesame

ITEM - NR. 561604-1000/9213

Based on our original Afterhour design, it sports an oil resistant outsole and an Ergolight footbed. This minimalist leather boot offers plenty of comfort for going out on the town.

**AVAILABLE SIZES:**

6.5-13.0 Half Sizes Available

# Alway —midnight

ITEM - NR. 561602-1000/9001

Whether sessioning the streets or the bar, the Alway can handle it all. Made of genuine leather, this midcut street shoe features a lightweight mesh lining and an Ergolight footbed for exceptional comfort and breathability. Forge your own path with the Alway.

**AVAILABLE SIZES:** 7.5-12.0 Half Sizes Available

shoes unisex.

afterhour series.

# #SIZEMATTERS

FOR ADDITIONAL COMFORT AND SUPPORT, EVERY DEELUXE BOOT MODEL IS AVAILABLE WITH A CUSTOMIZABLE THERMO-FLEX LINER. THIS LINER PROVIDES A PERSONALIZED FIT THANKS TO ITS HEAT-MOLDABLE MATERIAL AND PADS, WHICH CAN BE STRATEGICALLY PLACED TO CRADLE THE CONTOURS OF YOUR FEET. THESE BOOTS ARE THE PERFECT CHOICE FOR RIDERS SEARCHING FOR A CUSTOM FIT.

**PERFECT HEEL HOLD**

**PREVENTS BLISTERED FEET**

**ENHANCED COMFORT**

Unfortunately, many riders choose boots in the wrong size. They often do this by simply defaulting to their shoe size when selecting boots. Yet the fit and size of boots vary tremendously across brands. Luckily, the DEELUXE FOOT MEASUREMENT tool makes it especially quick and easy to pair customers with the correct boot size from Deeluxe. To get a proper measurement, have customers take off their shoes, stand, and place their feet on the foot measurement device. Be sure that their heels touch the back of it. Now use the location of their toes on the device's template to determine the customer's proper size. Please note that the volume and length of one's feet increases throughout the day. Consequently, if you're measuring a customer's feet in the morning, we recommend selecting a boot that's a half-size larger.

# THERMO CUSTOM FITTING

**TF PREMIUM LINER** ITEM-NR: 531700-1000/911

For a custom fit, this liner features heat moldable material and pads that can be strategically placed to provide additional comfort and support. Its perforated foam offers unrivaled breathability while its leather lining enhances heel hold and fit.

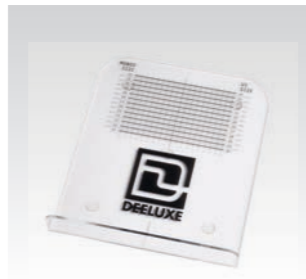

**THERMO FLEX LINER** ITEM-NR: 531701-1000/9110

To perfectly cradle the contours of your feet, this liner is heat moldable. It is placed in a special oven that is heated to between 90-110C. While cooling, the liner is fitted to your foot and will retain its form.

# LINERS

**PERFORMANCE LINER**

This performance-oriented fit provides extra support at the ankle thanks to an external heel harness. It's the ideal choice for passionate riders.

**COMFORT LINER**

Designed with comfort and convenience in mind, this liner sports all the essentials for a great day on the mountain.

**SURF LINER**

Inspired by surf booties, this liner provides a precise fit and exceptional board feel for pow-surfing and noboarding.

**HEEL HARNESS**

Designed to cradle a liner's exterior, this brace provides exceptional ankle support.

# LACE SMART®

**L1 LACING**  
One handle, one clasp, and one pull is all it takes to close the boot—it's easy, fast, comfortable, and safe.

**L2 LACING**  
Two clasps and two handles—a pull on each handle secures your foot to powerfully and precisely transfer energy to your board.

**L3 LACING**  
Armed with two clasps and two handles, this design creates two separate lacing zones—one cradles the foot and calf while the other locks down the ankle and heel. Thanks to these separate zones, the boot securely anchors your heel for a refined fit that enhances energy transmission.

**BOA® FIT SYSTEM**  
Fit to perform. Dial in your perfect fit with a smooth, uniform closure—so you can put less energy into keeping your foot secure and more into keeping control. And with dual dial boots providing zonal adjustment, you get a snug fit where you want it (not where you don't). Boa delivers custom comfort for longer days on the hill.

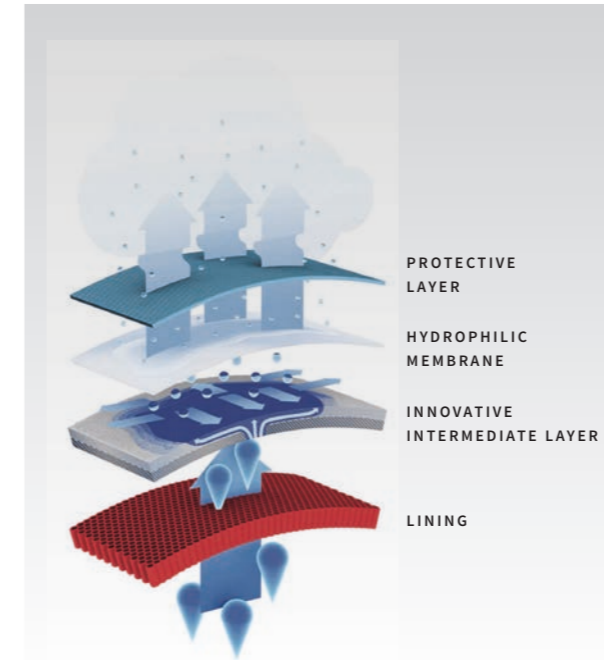

**GIRL POWER HANDLE**  
Especially convenient and easy to operate, the Girl Power handle is the perfect complement to the lacing system on our women's boots.

**POWER STRAP**  
This strap provides extra support for your shin to enhance response.

# SHELL CONSTRUCTION

Excellent micro climate in the shoe during extreme physical exertion.

- Prevention of unpleasant damp feeling by faster moisture wicking from the foot to the outside
- Faster drying of the dinner after exposure to extreme moisture
- Maximum wear comfort and dry feet for maximum performance in changing climatic conditions

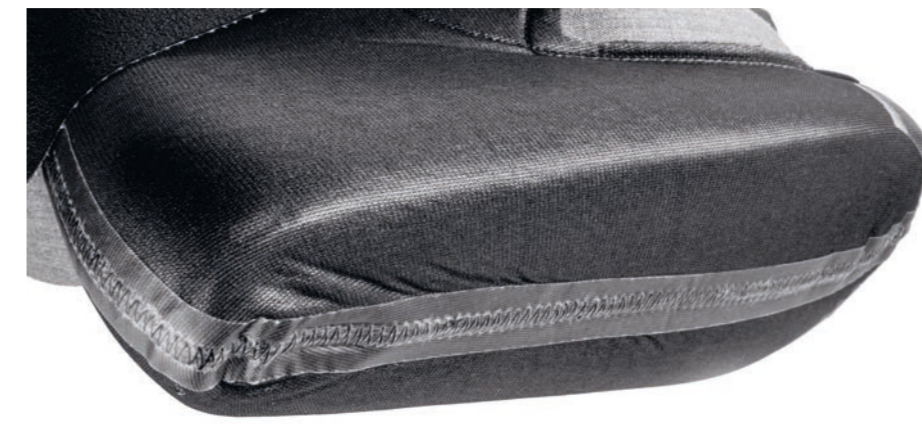

Featured on Brainchild.

**XLS**  
For enhanced comfort and longer strides when skinning, this system extends the range of motion available at the rear of the boot.

**THERMO BLOCK**  
Like a space blanket for your feet, this reflective insert maximizes warmth.

**D-TEX**  
Waterproof and breathable, this membrane ensures feet stay warm and dry.

technology lace smart.

technology shell construction.

# FLEX CONSTRUCTION

YOUR BOOTS SHOULD COMPLEMENT YOUR RIDING. GUIDED BY THIS BELIEF, WE CREATED OUR FLEX CONSTRUCTION. EACH BOOT WE MAKE FEATURES A DESIGN AND FLEX THAT IS CAREFULLY TAILORED TO A SPECIFIC RIDING STYLE. THIS ENSURES THAT NO MATTER HOW YOU APPROACH THE MOUNTAIN, YOUR HEELS STAY SNUGLY IN PLACE AND YOUR BOOTS EFFECTIVELY TRANSFER POWER.

## TPS SHIELD

Available as an accessory, the TPS Shield strengthens the boot's tongue, providing a stiffer flex and additional support.

**TPS SHIELD MEDIUM** ITEM-NR: 531701-1000/9110  
FLEX RATE +1

Firm yet somewhat forgiving, the TPS Shield Medium enables you to customize a boot's flex and support, making it slightly stiffer and more responsive.

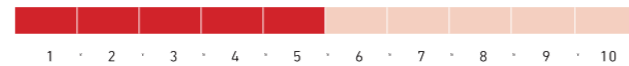

**TPS SHIELD HARD** ITEM-NR: 531701-1000/9110  
FLEX RATE +2

Thanks to its stiffer flex, the TPS Shield Hard enhances a boot's support and response significantly.

**TPS SHIELD ULTRA** ITEM-NR: 531701-1000/9110  
FLEX RATE +3

Especially stiff, the TPS Shield Ultra makes a boot incredibly supportive and exceptionally responsive.

## FLEX RATE

This system evaluates a boot's flex—the higher the number, the stiffer the boot.

## BACKBONE

This reinforced panel cradles the back of the boot to maximize durability and enhance response.

# FLEX CONSTRUCTION

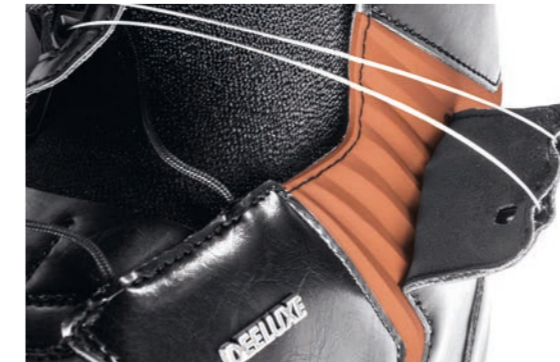

## CUSTOM FLEX

Thanks to two separate flex zones at the ankle, this design provides complete control of the boot's flex and ensures your heel stays locked in place.

## ASYM FLEX

This design pairs a stiffer flex on the outside of the boot with a softer flex on its inside for the perfect blend of power and comfort when free-riding.

## CARVE FLEX

Additional reinforcements in the ankle area stiffen the boot's flex, making it ideal for progressive freestyle and powerful carving.

## PRO FLEX

Designed for freestylers who demand premium performance, this construction creates a defined flex zone in the boot's joint area. This eliminates bulging and maximizes support, creating the perfect blend of flex and stability.

## FREE FLEX

Thanks to forefoot and shaft panels that overlap near the heel of the shell, this construction creates a supportive, surf-like flex.

## COSMIC FLEX

Designed for bindingless riding, this flex offers an unrivaled range of motion. Free your feet and surf the snow.

TECHNOLOGY

# SOLES

**ROCKGUARD**

This layer of rubber wraps around the toebox and sides of the boot, maximizing durability by providing protection from rocks and ice.

**BACKWELT**

The plastic backwelt features a grooved heel for rocking semiautomatic crampons.

technology soles.

**VIBRAM SOLE**

This mountaineering sole offers tremendous traction and durability.

Increased surface area for durability at high-wear points

**TRAVERSE TRACTION**

Positioned on the sides of the sole, these grip zones provide enhanced lateral hold when crossing slopes.

**EVA CUSHION**

EVA is a special material that maintains its flexible properties at all temperatures. EVA provides optimal performance even in extreme cold.

TECHNOLOGY

# SOLES

**REMEDY SOLE**

Especially versatile, this outsole provides the perfect blend of traction and cushioning.

**SKATE FLEX SOLE**

This freestyle sole offers enhanced board feel. We've partnered with Slytech to leverage the brand's latest technology in our boots. For an especially smooth ride, our Skate Flex soles feature a heel cushion of Slytech foam.\*
