

WORKBOOK 20121

POW®

BUILT TO LAST

ALL DAY EVERYDAY

GLOVE TECH OVERVIEW

GENERAL FIT GUIDE

POW Gloves are patterned to fit the hand for the end use it was designed for. We desinged some styles to fit larger to add more loft and room for air to move around creating more warmth(Lofted Fit), some styles that have a balance of loft and tactility (Common Fit), and styles that were built to fit tighter for more tactile feel (Profile Fit).

Most POW styles were built with Pre-Curve pattern construction giving you the most natural hand form and comfort throughout the day.

MEN'S		
SIZE	INCH	CM
S	7	18
M	7.5 - 8	20
L	8.5 - 9	22
XL	9.5 - 10	25
XXL	10 - 10.5	26

WOMEN'S		
SIZE	INCH	CM
XXS	5.5	14
XS	6	15
S	6.5	17
M	7	18
L	7.5	19
XL	8	20

KID'S / MINI'S		
AGE	INCH	CM
00YR	3.5	9
0YR	4	10
1YR	4.5	11.5
2YR	5	13
3YR	5.5	14
4YR	6	15.5
6YR	6.5	16.5
8YR	7	18
10YR	7.5	19
12YR	8	20

LOFTED FIT

Styles that give you extra room between the lining and your hand creating better warm air circulation. These styles are insulated with higher gram insulation weights and have greater warmth values.

COMMON FIT

Styles that give you a good balance of warmth and tactility. These styles are generally insulated with a compressed insulation for a fit that has less bulk.

PROFILE FIT

Styles that give you ultimate tactical feel. These styles are lightly insulated or not insulated at all for a real feel type fit.

WARMTH RATING

POW Gloves warm rating icons are ment to be interpreted as a general guide for the insulation build and performance of said glove/mitt. It is generally known that mitts are warmer than gloves due to the fact that your fingers share heat when they are not seperated by fabric.

Insulated/Built for cold to very cold winter days.

Insulated/Built for cold winter days.

Insulated/Built for cool winter days to cool spring days.

Insulated/Built for cool spring days.

WATERPROOF INSERTS

Protection and comfort. Waterproof and breathable gloves engineered with GORE-TEX inserts are durably waterproof, windproof and breathable - guaranteed. They offer enduring weather protection and comfort, balanced heat transfer and optimum moisture management - even in the harshest conditions. As a result, your hands stay warmer when it's cold, and drier when you perspire.

Hipora is a 3 layer membrane that prevents water from coming in while letting moisture out. This premium fabric has a microporous structure with a polyurethane coating. The layers of material have tiny holes in it so water can't get in, but moisture will release out.

SoDry is a Waterproof membrane with a uniform structure made to withstand wet and cold conditions. SoDry membranes are highly durable, flexible and waterproof. These membranes give peace of mind and will remain consistent for a long period of time.

INSULATIONS

Primaloft® Gold insulation is designed to regulate your confort level during intense activity while offering performance without compromise in a wide range of conditions. Warmth without bulk, water resistant, 4-way stretch, breathable, packable and lightweight, superior softness and 45% post consumer recycled content.

3M™ Thinsulate™ Insulation is warm yet lightweight, powerful yet thin. It helps trap and hold body heat, while allowing moisture to escape. The extremely fine microfibers in Thinsulate insulation help trap air and block body radiant heat loss, making it an efficient insulator. The high warmth-to-thickness ratio of this insulation enables glove designs with less bulk and enhanced freedom of movement.

Fiberfill is a synthetic fiber used for insulating gloves giving you warmth and comfort while in use. With the ability to trap air up to 97% of it's volume, this insulation is great for keeping you warm. Fiber fill has a very soft hand feel and is a very durable insulator.

SHELL FABRICS

MICRO TWILL NYLON w/ TEFLON DWR

Twill nylon treated with a durable water repellent coating to act as a first barrier to water. The backside also has a laminate coating for another barrier to water.

POLY OXFORD

A tight traditional weave fabric made with a laminated backside for an added barrier to water makes this a great breathable, durable and water resistant fabric.

PU NYLON TWILL

Nylon twill fabric made with a lamainte on backside for an added barrier to water. soft hand feel and extrmely comfortable.

FHK@ NYLON w/ DWR

Tight weave nylon twill fabric made with a lamainte on backside for an added barrier to water. soft hand feel, light weight and extrmely comfortable.

SOFT POLY TWILL

Polyester twill fabric made with a lamainte on backside for an added barrier to water. Quick drying, light weight and durable.

100 D 4-WAY SPANDEX w/ PU LAMINATE

100 denier fabric with vertical and horizontal stretch properties. Additional lamainte on backside for an added barrier to water and durability. Excelant feeling flexible light weight fabric.

POLY RECYCLED OTTOMAN

60% recycled polyester fabric with a durable water repellent coating to act as a first barrier to water. The backside also has a laminate coating for another barrier to water and durability. 15K/10K

POLY DOBBY WEFT STRETCH

Polyester fabric with added corduroy texture and excelant hand feel. added durable water repellent coating to act as a first barrier to water. The backside also has a laminate coating for another barrier to water and durability. 15K/10K

CORDED NYLON

Nylon fabric with a rigid tough hand feel. Durable water repellent coating to act as a barrier to water.

BUFF

A nubuck material made from finely ground leather fibers. This fabric has a smooth soft hand feel giving it a flocked feel.

NEOPRENE

Synthetic rubber that exhibits good flexibility over a wide temperature range.

SOCK CUFF

Polyester ribbed tube material with 4-way elastic stretch and moisture wicking/durable properties.

PALM MATERIALS

GRADE A LEATHER

The finest goatskin from the worlds top tanneries. Our leathers are hand picked for their quality and consistant thickness.

SUEDE LEATHER

Leathers that are finished by buffing the flesh side to produce a nap. These suede leathers are all from top quality hides and from the worlds top tanneries.

PITTARDS OILTAC DRAGON ETCHED LEATHER

Pittards Oiltac enhances the grip of leather gloves in all conditions, wet or dry. Oiltac leather offers a high degree of water and perspiration resistance while protecting the leather and minimising water uptake.

TOUCH CAPABLE LEATHERS

Our goatskin touch leathers are treated to include touch capable performance without compromising feel or durability.

AMARA SYNTHETIC LEATHER

High quality microfiber synthetic leather with a soft and comfortable feel. Amara leather has excellant abrasion resistance, breathability and superior durability.

RUBBER-TEX

A polyester substrate palm material that is a highly durable, flexible and waterproof. A slight texture increases grip and improves abrasion resistnace.

PU WATERPROOF

A polyester substrate palm material that is a durable, light weight, waterproof and flexible. Subtle texture icreases grip.

LINING AND LINERS

ANTI PILL POLY MICROFEELCE

A polyester micro fleece with anti pilling, moisture wicking, quick drying and breathable properties. It has a untra smooth hand feel.

POLY PRO MICROFEELCE

A polypropelene fleece material with moisture wicking, quick drying and breathable/durable properties that is perfect for staying warm and dry.

200G MICROFLEECE

A thick brushed polyester microfleece with moisture wicking and quick drying properties that will keep you nice and cozy in cold winter condtions.

POLARTEC FLEECE

Premium polyester yarns are used to repel moisture and speed dry times. The lofted structures create thermal air pockets to retain warmth, and still allow optimal breathability.

MERINO WOOL

Easy to wear next to skin and comfortable in a range of temperatures. This light weight and breathable wool has antimicrobial and moisture managment properties unmatched by other materials.

MILKY FIBER

Multi-directional stretch fabric with an excellant next to skin feel. This technical fiber delievers added warmth and moister wicking comfort.

HOOK AND LOOP

ULTRA MAGIC NO SNAG

A highly durable and strong closed loop side that will not snag other clothing or attract unwated fibers and lint keeping it clean for extended use.

STRD HOOK AND LOOP

A sturdy hook and loop material with excellant grip properties and low profile performance.

FEATURE ICONS

Ergonomically designed natural hand curve for maximum dexterity.

Touchscreen capable for any of your mobile devices.

Wrist leash triangle included so you can add a wrist leash to your gloves.

Wrist leash included so you don't blow it.

Wipe the elements away with a swipe of your thumb.

Temperature control at the pull of a zipper, back hand venting for total comfort.

Natural, odourless merino wool is excellent at regulating body temperature.

Liner, shell or combine them for a proven layering system in any climate.

The finest goatskin from the worlds top tanneries.

High loft on the back hand for warmth and low profile loft on the palm for secure grip.

Fits under your jacket cuff for a clean look.

Fits over your jacket cuff for powder protection.

Wet or dry, never lose your grip.

The patented hook and loop system will not snag your base layers or jacket.

Percentage of material used is recycled.

Removable glove liner with touch capability included.

GORE-TEX Gloves

Protection and comfort. Waterproof and breathable

Gloves engineered with GORE-TEX inserts are durably waterproof, windproof and breathable – guaranteed. They offer enduring weather protection and comfort, balanced heat transfer and optimum moisture management – even in harsh conditions. As a result, your hands stay warmer when it's cold, and drier when you perspire.

GORE-TEX Gloves + Gore **active** technology

Drier. Longer. Waterproof and breathable.

Gloves engineered with GORE-TEX inserts + Gore active technology are durably waterproof, windproof and highly breathable – guaranteed. The whole system of inner lining, membrane and outer material is optimized for enhanced breathability. This increases the level of comfort in an even wider range of activity levels.

GORE-TEX Gloves + Gore **warm** technology

Warmer. Longer. Waterproof and breathable.

Gloves engineered with GORE-TEX inserts + Gore warm technology are durably waterproof, windproof and breathable – guaranteed. Even in harsh conditions the whole system of inner lining, membrane and outer material is optimized to keep your hands warmer for longer.

WORKING TOGETHER FOR YOU.

POW X COAL

HIGHLINE COLLECTION

The Coal - POW Gloves relationship runs deep — deep like the feeling of laying into a bottomless pow turn in a backcountry chute, or like the feeling of riding down a gravel road with a wide open throttle.

The Highline Collection was inspired by the union of both of these indescribable feelings in one ambitious Pacific Northwest backcountry adventure. We pushed this new collection to its limits on our quest for summit views and rippable terrain.
