

POW

ALL DAY EVERY DAY

GLOVE TECH OVERVIEW

WINTER 22

GENERAL FIT GUIDE

POW Gloves are patterned to fit the hand for the end use it was designed for. We designed some styles to fit larger to add more loft and room for air to move around creating more warmth(Lofted Fit), some styles that have a balance of loft and tactility (Common Fit), and styles that were built to fit tighter for more tactile feel (Profile Fit).

Most POW styles were built with Pre-Curve pattern construction giving you the most natural hand form and comfort throughout the day.

MEN'S

8YR	7	18
10YR	7.5	19
12YR	8	20

FIT GUIDE STRUCTURE

LOFTED FIT

Styles that give you extra room between the lining and your hand creating better warm air circulation. These styles are insulated with higher gram insulation weights and have greater warmth values.

COMMON FIT

Styles that give you a good balance of warmth and tactility. These styles are generally insulated with a compressed insulation for a fit that has less bulk.

PROFILE FIT

Styles that give you ultimate tactical feel. These styles are lightly insulated or not insulated at all for a real feel type fit.

WARMTH RATING

POW Gloves warm rating icons are meant to be interpreted as a general guide for the insulation build and performance of said glove/mitt. It is generally known that mitts are warmer than gloves due to the fact that your fingers share heat when they are not separated by fabric.

Insulated/Built for cold to very cold winter days.

Insulated/Built for cold winter days.

Insulated/Built for cool winter days to cool spring days.

Insulated/Built for cool spring days.

WATERPROOF INSERTS

Protection and comfort. Waterproof and breathable gloves engineered with GORE-TEX inserts are durably waterproof, windproof and breathable - guaranteed. They offer enduring weather protection and comfort, balanced heat transfer and optimum moisture management - even in the harshest conditions. As a result, your hands stay warmer when it's cold, and drier when you perspire.

Hipora is a 3 layer membrane that prevents water from coming in while letting moisture out. This premium fabric has a micro-porous structure with a polyurethane coating. The layers of material have tiny holes in it so water can't get in, but moisture will release out.

SoDry is a Waterproof membrane with a uniform structure made to withstand wet and cold conditions. SoDry membranes are highly durable, flexible and waterproof. These membranes give peace of mind and will remain consistent for a long period of time.

INSULATIONS

Primaloft® Gold insulation is designed to regulate your comfort level during intense activity while offering performance without compromise in a wide range of conditions. Warmth without bulk, water resistant, 4-way stretch, breathable, packable and lightweight, superior softness and 45% post consumer recycled content.

3M™ Thinsulate™ Insulation is warm yet lightweight, powerful yet thin. It helps trap and hold body heat, while allowing moisture to escape. The extremely fine microfibers in Thinsulate insulation help trap air and block body radiant heat loss, making it an efficient insulator. The high warmth-to-thickness ratio of this insulation enables glove designs with less bulk and enhanced freedom of movement.

Fiberfill is a synthetic fiber used for insulating gloves giving you warmth and comfort while in use. With the ability to trap air up to 97% of it's volume, this insulation is great for keeping you warm. Fiber fill has a very soft hand feel and is a very durable insulator.

SHELL FABRICS

GORE-TEX INFINIUM™

Gore-Tex Infinium™ form fitting products combine total windproofness and maximum breath ability while being quite, soft and with stretch capabilities.

MICRO TWILL NYLON w/ TEFLON DWR

Twill nylon treated with a durable water repellent coating to act as a first barrier to water. The backside also has a laminate coating for another barrier to water.

POLY OXFORD

A tight traditional weave fabric made with a laminated backside for an added barrier to water makes this a great breathable, durable and water resistant fabric.

RECYCLED POLY PU LAMINATE w/ DWR

Polyester fabric made with a laminate on backside for an added barrier to water. Soft hand feel and extremely comfortable.

FHK® NYLON w/ DWR

Tight weave nylon twill fabric made with a laminate on backside for an added barrier to water. Soft hand feel, light weight and extremely comfortable.

RECYCLED SOFT POLY TWILL

Recycled polyester twill fabric made with a laminate on backside for an added barrier to water. Quick drying, light weight and durable.

100 D 4-WAY SPANDEX w/ PU LAMINATE

100 Denier fabric with 4-way stretch properties. Additional laminate on backside for an added barrier to water and durability. Excellent feeling flexible light weight fabric.

RECYCLED POLY OTTOMAN w/ DWR

60% Recycled polyester fabric with a durable water repellent coating to act as a first barrier to water. The backside also has a laminate coating for another barrier to water and durability. 15K/10K

POLY DOBBY WEFT STRETCH

Polyester fabric with added corduroy texture and excellent hand feel. Added durable water repellent coating to act as a first barrier to water. The backside also has a laminate coating for another barrier to water and durability. 15K/10K

EVEREST SOFTSHELL

Nylon Spandex laminated fabric with a plain dull twill finish. Durable, quick drying and extremely comfortable.

CORDED NYLON

Nylon fabric with a rigid tough hand feel. Durable water repellent coating to act as a barrier to water.

BUFF

A nubuck material made from finely ground leather fibers. This fabric has a smooth soft hand feel giving it a flocked feel.

PALM MATERIALS

GRADE A LEATHER

The finest goatskin from the worlds top tanneries. Our leathers are hand picked for their quality and consistent thickness.

SUEDE LEATHER

Leathers that are finished by buffing the flesh side to produce a nap. These suede leathers are all from top quality hides and from the worlds top tanneries.

PITTARDS OILTAC DRAGON ETCHED LEATHER

Pittards Oiltac enhances the grip of leather gloves in all conditions, wet or dry. Oiltac leather offers a high degree of water and perspiration resistance while protecting the leather and minimizing water uptake.

AX SUEDE LEATHER

Built specifically for gloves, this Vegan polyester leather offers high abrasion resistance, dexterity, no pilling, and adds a soft pliable feel.

TOUCH CAPABLE LEATHERS

Our goatskin touch leathers are treated to include touch capable performance without compromising feel or durability.

AMARA SYNTHETIC LEATHER

High quality microfiber synthetic leather with a soft and comfortable feel. Amara leather has excellent abrasion resistance, breath-ability and superior durability.

RUBBER-TEX

A polyester substrate palm material that is a highly durable, flexible and waterproof. A slight texture increases grip and improves abrasion resistance.

PU WATERPROOF

A polyester substrate palm material that is a durable, light weight, waterproof and flexible. Subtle texture increases grip.

LINING AND LINERS

ANTI PILL POLY MICRO FLEECE

A polyester micro fleece with anti pilling, moisture wicking, quick drying and breathable properties. It has a ultra smooth hand feel.

POLY PRO MICRO FLEECE

A polypropylene fleece material with a nice terry finish. This fabric has moisture wicking, quick drying, breathable and durable properties and is perfect for staying warm and dry.

200G MICRO FLEECE

A thick brushed polyester micro fleece with moisture wicking and quick drying properties that will keep you nice and cozy in cold winter conditions.

POLARTEC FLEECE

Premium polyester yarns are used to repel moisture and speed dry times. The lofted structures create thermal air pockets to retain warmth, and still allow optimal breath-ability.

MERINO WOOL

Easy to wear next to skin and comfortable in a range of temperatures. This light weight and breathable wool has antimicrobial and moisture management properties unmatched by other materials.

MILKY FIBER

Easy to wear next to skin and comfortable in a range of temperatures. This light weight and breathable wool has antimicrobial and moisture management properties unmatched by other materials.

HOOK AND LOOP

ULTRA MAGIC NO SNAG

A closed loop side that will not snag other clothing or attracted unwanted fibers and lent keeping it clean for extended use. Highly durable and strong.

STRD HOOK AND LOOP

A sturdy hook and loop material with excellent grip properties and low profile performance.

FEATURE ICONS

Ergonomically designed natural hand curve for maximum dexterity.

Touchscreen capable for any of your mobile devices.

Wrist leash triangle included so you can add a wrist leash to your gloves.

Wrist leash included so you don't blow it.

Wipe the elements away with a swipe of your thumb.

Temperature control at the pull of a zipper, back hand venting for total comfort.

Natural, orderless merino wool is excellent at regulating body temperature.

Liner, shell or combine them for a proven layering system in any climate.

The finest goatskin from the worlds top Tanneries.

High loft on the back hand for warmth and low profile loft on the palm for secure grip.

Fits under your jacket cuff for a clean look.

Fits over your jacket cuff for powder protection.

Wet or dry, never lose your grip.

The patented hook and loop system will not snag your base layers or jacket.

Percentage of material used is recycled PET.

Removable glove liner with touch capability included.

ALL DAY
EVERY DAY

GORE-TEX GLOVES

Trusted protection and comfort. Make more of every day.

More comfort. Better protection.

Skiers, snowboarders and many more outdoor adventurers trust GORE-TEX gloves to keep their hands protected, mobile, and comfortable.

As well as all being guaranteed waterproof, windproof, and breathable, gloves made with GORE-TEX product technologies offer a range of additional benefits.

Highly insulated. Durably waterproof. Adventure doesn't go home early.

If you're heading out for a long day mountain touring or just know you'll be out adventuring for hours when the mercury is low, you need protection you can rely on. GORE-TEX plus warm gloves are designed to keep your hands comfortably warmer and protected for longer. They're also totally windproof, breathable and carry our GUARANTEED TO KEEP YOU DRY™ promise.

Extremely breathable. Durably waterproof. Breathe it all in—and out.

Whether it's a fast-paced hike or an intense day on the slopes, when you're taking part in active sports on cool days you need to breathe—and breathe hard. These are the most breathable GORE-TEX gloves available. Even during heavy exercise less heat accumulates and less moisture is trapped in the insulation so it remains drier. These gloves also offer our GUARANTEED TO KEEP YOU DRY™ promise and are totally windproof.

GORE-TEX INFINIUM™ WINDSTOPPER® GLOVES

Totally windproof. Exceptional comfort. Treat your active fingers better.

TOTALLY WINDPROOF
Wind can't get through the protective membrane, keeping your fingers warmer for longer.

EXTREMELY BREATHABLE
The innovative membrane allows sweat vapor to escape, so even during a non-stop day you stay comfortable.

SKIN COMFORT
Excellent moisture management and high breathability mean your hands stay dry and comfortable even during an active day.

GORE-TEX INFINIUM™ STRETCH GLOVES

Snug fit. Better control. Made to keep on.

SNUG FIT
3D-formed in the shape of your hand, so you get a snug fit that feels great and allows you to get more done every day.

BETTER CONTROL
Less bulky and less seams: these gloves are perfect for everything from tying laces to sending a message.

STRETCH
The stretch material enables the snug fit and requires less force to move your fingers.

TOTALLY WINDPROOF
Wind can't get through the protective membrane, keeping your fingers warmer for longer.

EXTREMELY BREATHABLE
The innovative membrane allows sweat vapor to escape, so even during a non-stop day you stay comfortable.
