WHAT'S NEW 2024

TRUE WINDSURFING

ENGLISH

DUOTONESPORTS.COM

**OUR MINDSET.
OUR PURPOSE.**

WHAT BELONGS TOGETHER GROWS TOGETHER

FANATIC PRODUCTS WINDSURFING UNDER DUOTONE IN THE FUTURE.

When we made the transfer to our newly established Duotone brand with windsurfing sails in 2018, it truly enhanced the Windsurf Division. Our windsurfing customers received this brand transfer extremely positively. Since then, the Duotone brand achieved incredible strength, competence and acceptance.

Today, Duotone already covers a large part of the watersports world, from kiteboarding to wings for wing foiling and windsurfing sails. The vast knowledgebase shared across the sports is something we thrive from at Duotone. That's why we have decided that in the future we will offer the products from the performance area, which were previously under Fanatic, under the Duotone brand, i.e., windsurf boards, foils and wing foil boards. In the commercial SUP sector (stand-up paddling), the Fanatic brand will remain. From now on, Duotone will appear as an overall brand – for windsurf, wing, foil and kite.

For years, Fanatic and Duotone have shared team riders, held joint photo shoots and launched products on a common date. For many years it's already been one team and one brand under one roof – just with two different logos, and honestly, that's inefficient for everyone.

In windsurfing, the development teams of windsurf boards and sails have already been working closely together for many years. Dani Aeberli for boards and Marco Lang for sails will take on more important roles as Product Managers in the future. The complete team remains as you know it – from team riders

through to the design process with the lead designers. Kai Hopf will continue his long-established role of designing the windsurf sails, just as Sebastian Wenzel continues developing the shapes of the windsurf boards. Raoul Joa controls the area as Division Manager Windsurf.

The product lines are, and will remain, how you know them and will be continued under Duotone. This was true for the windsurf sails that we have been carrying under Duotone since 2018 – a Warp or Super Hero was and is always the sail that everyone loves so much. And it now applies to the windsurf boards as well: a Skate, Freewave or Falcon is and remains a Skate, Freewave or Falcon, just now a Duotone Skate, Duotone Freewave and Duotone Falcon.

We are segmenting the products in the windsurfing area much more clearly in their fit – everything comes from a single mould and design concept. It simply brings our customers better products when we create synergies and perfectly coordinate the development of boards and sails together. In a sport as sophisticated as windsurfing, it's the little things that make the big difference. With a perfectly matched board and rig, you get even more performance out of your set-up.

In kitesports, there is no separation of brands between boards and kites. In windsurfing, on the other hand, there have traditionally always been board brands and sail brands, yet this concept is outdated. It does not give an advantage to customers. Many of our customers practice windsurfing and winging, or windsurfing and kiting. The mindset today is much more

open and thus our products will be designed to reflect this.

In the Duotone foil range, from 2024 there will be mast-fuselage combinations that fit perfectly for both windsurfing and winging as well as for kiting – and also for prone foiling, wake foiling, downwind foiling and pump foiling. In addition, there are front and backwings for differentiated areas of use – of course, individual wings are predestined for special conditions – but everything is compatible with each other because the underlying requirements for an excellent foil are basically the same in all foil disciplines.

Together we are simply stronger. That has always counted at Boards & More. Without windsurfing distribution, our origin more than 30 years ago, kiting would never have had such a great success. Wing foiling as a new sport, on the other hand, would never have been able to develop so dynamically without the resources from kiting.

This brand family of sports is so strong because we have a common platform with the Boards & More Group: developers, importers, dealers as well as employees in Molln and Oberhaching – signifies decades of experience, and continuity is the cornerstone for innovation, quality and service.

A key strategy of Boards & More for the future is also to offer not only products, but also experiences that provide customers with relevant added value. These already include the Duotone Pro Centers, the Duotone Academy App, Duotone Young Blood Camps, and the Boards & More Save our Playground sustainability initiative. In all these measures, the Boards & More Group does not differentiate between the sports in its portfolio and likewise not between brands.

An overall Duotone brand brings so many advantages for our customers by bundling our collective knowledge and thus moving together much more strongly into the future.

TILL EBERLE, RAOUL JOA

WHAT'S NEW 2024

UNLEASH YOUR POTENTIAL

GRIP 4 S/L/S × GRIP 3 S/L/S

ART. NO. 14240-1001

ART. NO. 14240-1002

KEY FEATURES

- + Dedicated Quad and Thruster World Cup Wave boards
- + Complete new construction and optimised fittings lead to a weight saving of 300-400g
- + Brand new shapes for the entire GRIP 3 SLS range

FREE WAVE S/L/S

ART. NO. 14240-1006

KEY FEATURES

- + Complete new construction and optimised fittings lead to a weight saving of up to 400g

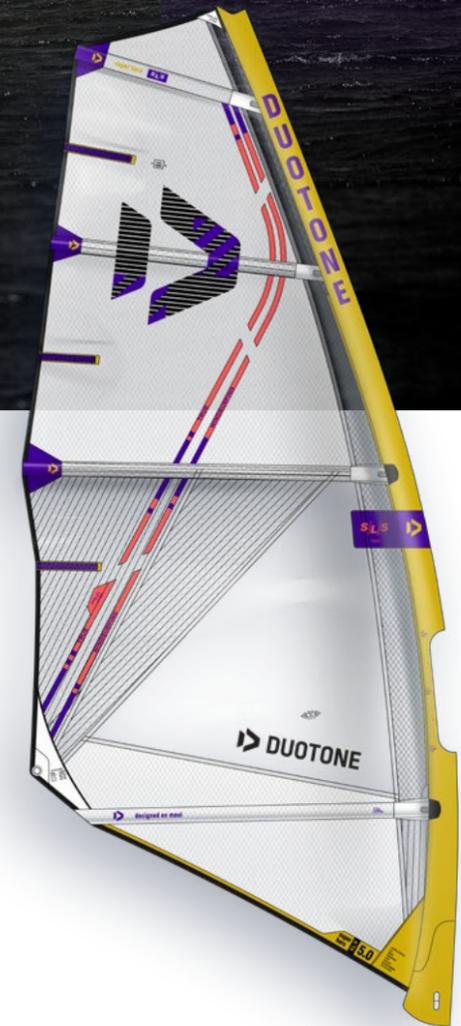

SUPER HERO S/L/S

ART. NO. 14240-1202

KEY FEATURES

GAME CHANGING TECHNOLOGY

- + First ultra-light sail which doesn't have a smaller but even bigger wind range and is even more durable than a regular sail
- + Only ultralight sail on the market with 2+3 YEAR WARRANTY!

SILVER MEGA SLIM **2** YEAR UNCONDITIONAL WARRANTY

ART. NO. 14230-1406

KEY FEATURES

- + Thinnest adult alloy boom in existence
- + Diameter 140 + 160: 25,5mm
- + Diameter 180: 27,5mm
- + No compromise on stiffness and durability
- + 2 YEAR UNCONDITIONAL WARRANTY

EPX.90

ART. NO. 14240-1626

KEY FEATURES

- + Who says high-end carbon masts are unaffordable? With the EPX.90 we make exclusivity affordable for everyone

EPX.40

ART. NO. 14240-1625

KEY FEATURES

- + EPX.25 upgraded to EPX.40 to cope cancelled Black.50 (with same or even lower weights than the Black.50)

DUOTONE FINS

KEY FEATURES

- + Refined range and technology
- + Complete range covering all kind of disciplines and boards
- + Complete new looks
- + Own section on the website
