Bataleon Ride The Future 2023 - 2024

We are proud to present the latest Bataleon offering, which marks our 20 Year anniversary.

We did the math and we are now 400 boards from where we started. It's not just the graphics that have evolved over the years. We continue to push what is possible in snowboard technology.

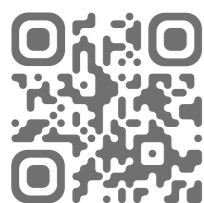

Check out the Bataleon 20 Year anniversary capsule collection to see how we will celebrate this milestone. There will be a 20 year board with a matching binding, as well as a book featuring 20 years of Bataleon graphics along with other goodies.

A celebration is nice but we are not the ones to sit back and reminisce about the past. We are here to ride the future with you. That's why we are hyped to introduce 3 new binding models featuring our new HeelWrap chassis and updated straps and highbacks.

We have added 3 new 3D snowboards to an already impressive line-up, updated a number of shapes and expanded our womens/small humans offering by adding smaller sizes to existing models.

Please check out all of our collections and let us know what you think.

Have a nice ride.
