PROTECTION. PROGRESSION. ION 2026.

As a proudly European brand, ION thrives on the versatility of outdoor action sports. We're here to gear you up with the best. — from tackling gusty winds and carving through gnarly waves to braving the harshest elements. At ION, innovation never rests. With a commitment to top-tier quality, cutting-edge design, and sustainable materials, we're in charge of redefining performance.

Protection is ION's core value. The 2026 spring/summer range features an entirely new generation of protection. The Sun Pro Waterwear range introduces a fresh line-up of hats and caps to shield you from intense sunlight.

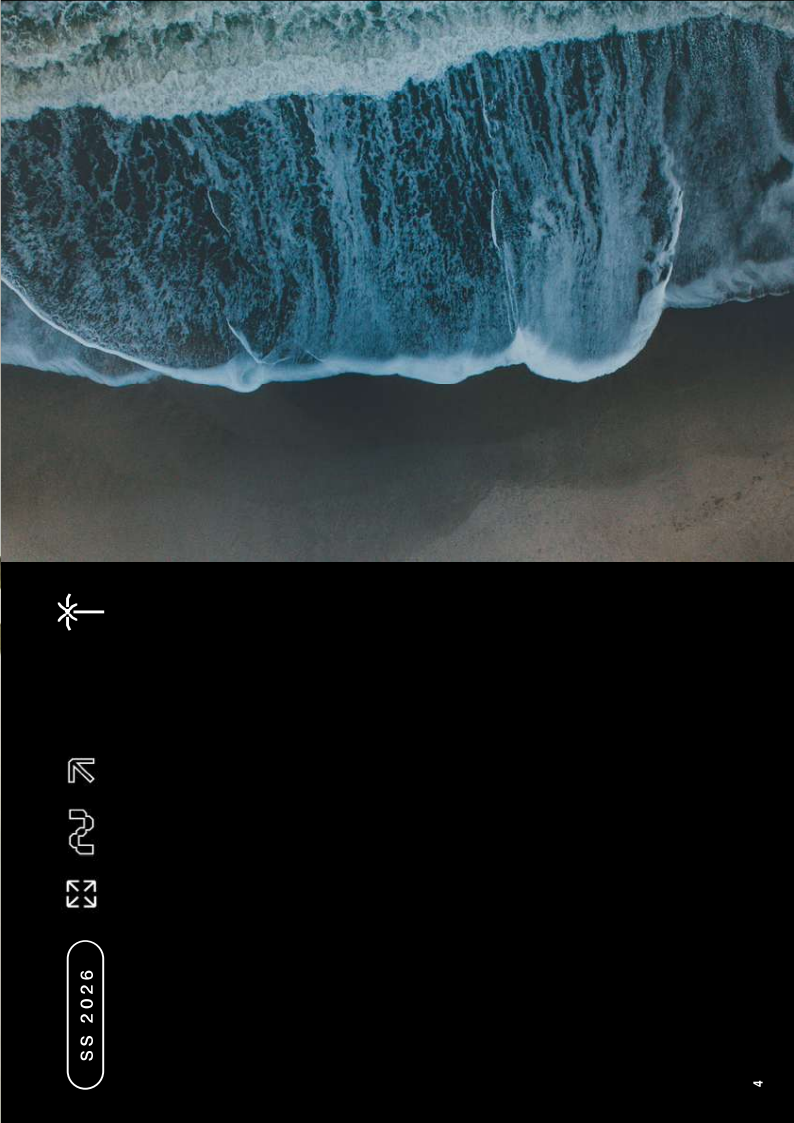

Facing the wind is no longer a challenge, thanks to the wind-resistant Storm Pro Waterwear series.

Introducing the Surf Shield range, a groundbreaking innovation in our industry. Made with cut-resistant materials, this collection provides a new level of safety in and on the water. Sharp edges are no longer a threat, no matter what foil, fin, or reef you hit. The Surf Shield gear sets a new benchmark in protection and confidence for every rider, everywhere.

With the launch of our completely reengineered Core Travel Gear range, we extend ION's commitment to safeguarding your equipment. From boards gear — this new generation of travel bags and board covers is built to withstand impact, pressure, and time.

Every piece has been rethought from the ground up, protecting you from the power of the elements and the ordinary.

The ION Team

SS 2026

WHAT'S NEW

ION
UPDATES ON A BLINK

WETSUITS YOUTH

CAPTURE

UPDATED GROM LINE. CAPTURE WETSUITS — DESIGNED FOR YOUNG RIDERS NOW FEATURE THE SAME DURABLE OUTER LINING AS THE ADULT ELEMENT SERIES. FINISHED WITH A FRESH, VIBRANT COLOR UPDATE.

WETSUITS WOMEN

SUMMERSTYLES

DESIGNED FOR SUNNY SESSIONS AND MADE TO MOVE FREELY: COMBINING PROTECTION, COMFORT, AND CONFIDENCE, THE RANGE FEATURES BOLD NEW COLORS, TAILORED TO FIT, FLATTER, AND EMPOWER EVERYONE. WHATEVER PLEASURE YOU SEEK.

HARNESSES

HARD SHELL RANGE

THE NEW SHELL DESIGN SHIFTS STIFFNESS FROM THE SPINE TO THE SIDES — DELIVERING OPTIMIZED SUPPORT EXACTLY WHERE IT'S NEEDED MOST. SAME MATERIAL, SMARTER DISTRIBUTION, BETTER PERFORMANCE.

TRAVELGEAR

CORE RANGE

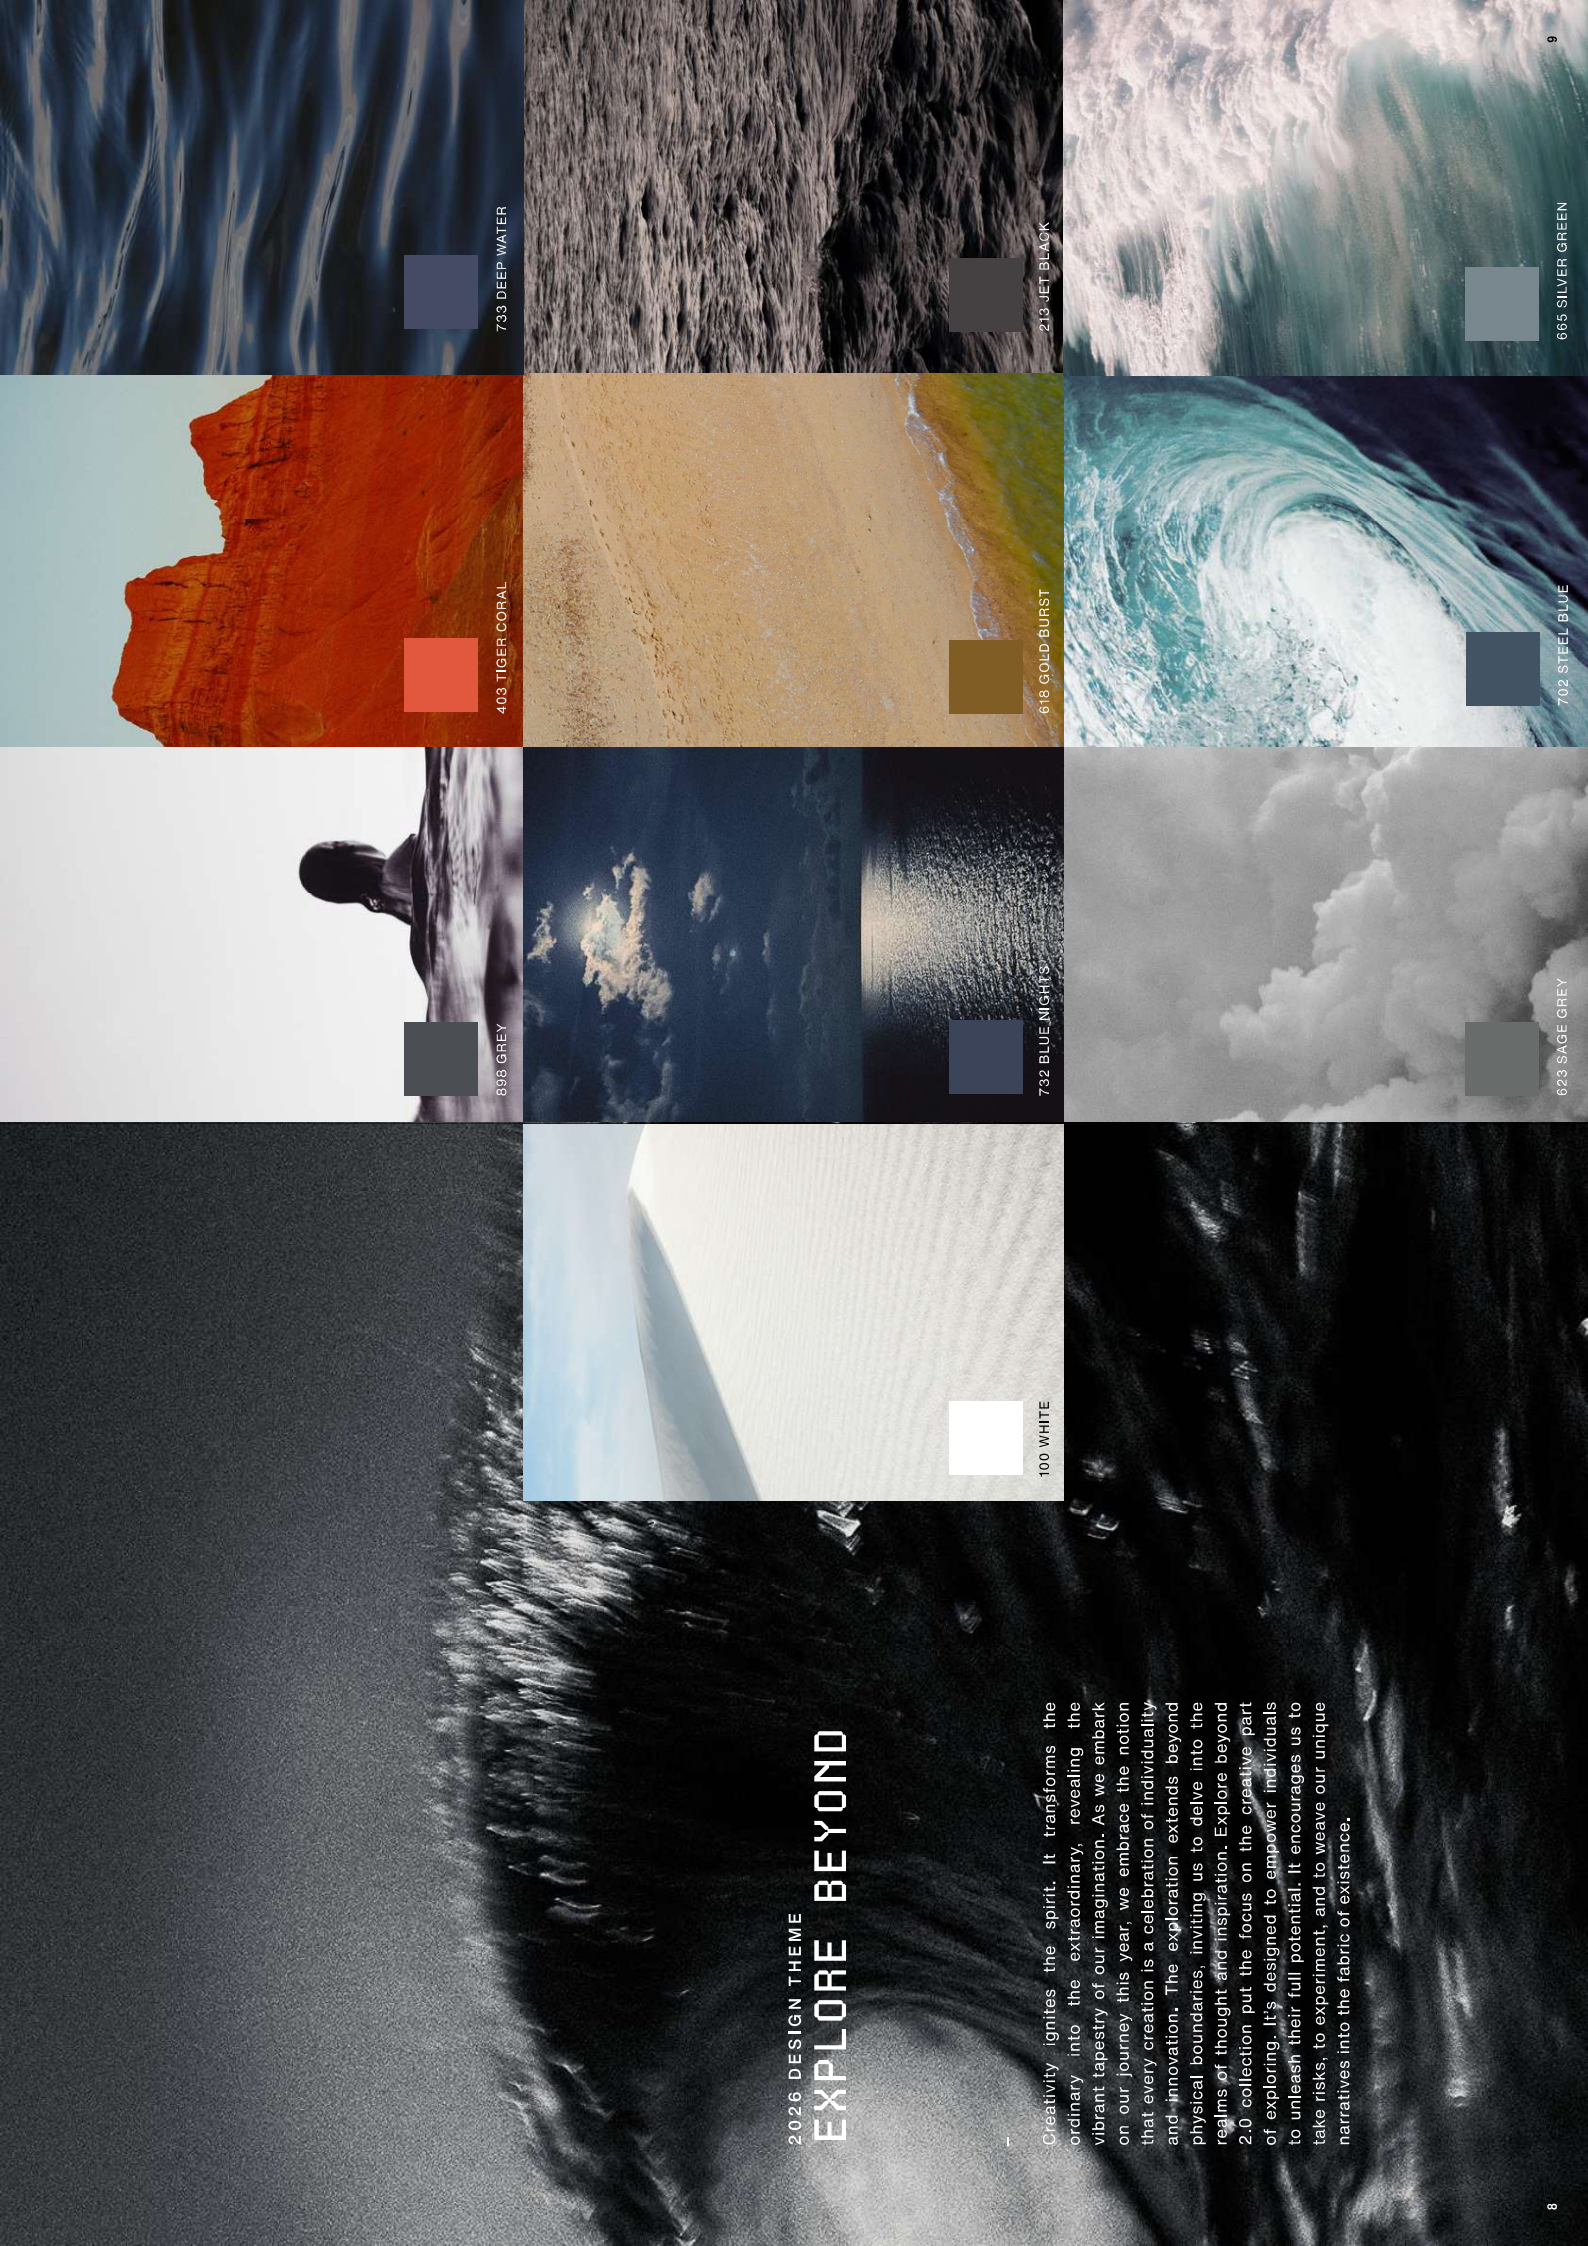

THE CORE RANGE HAS LONG BEEN A STAPLE IN ION'S LINEUP. FOR 2026, IT RECEIVES A FULL UPDATE, NOT JUST A NEW COLORWAY, BUT ALSO A RANGE OF THOUGHTFULLY REFINED FEATURES THAT MAKE A REAL DIFFERENCE IN EVERYDAY USE.

ION

UPDATES ON A BLINK

2026 DESIGN THEME EXPLORE BEYOND

Creativity ignites the spirit. It transforms the ordinary into the extraordinary, revealing the vibrant tapestry of our imagination. As we embark on our journey this year, we embrace the notion that every creation is a celebration of individuality and innovation. The exploration extends beyond physical boundaries, inviting us to delve into the realms of thought and inspiration. Explore beyond 2.0 collection put the focus on the creative part of exploring. It's designed to empower individuals to unleash their full potential. It encourages us to take risks, to experiment, and to weave our unique narratives into the fabric of existence.

ION STORM & SUN PRO SERIES

Protection at its core

Built to match ION's mission to protect you against the elements, the new SunPro and StormPro Series are available as Rashguards and Wetshirts for both men and women. Crafted from premium materials and engineered for your specific needs, these styles go beyond standard protection.

The SunPro Series offers reliable UV defense, making it your go-to for sun-drenched sessions on the beach or in the water. The StormPro Series shields you from windchill and unpredictable coastal weather, keeping you warm and protected when conditions get rough.

Whether you're pushing limits offshore or just enjoying the shoreline — thanks to advanced features and thoughtful design — these pieces are no longer just an option. They're essential.

TECHNOLOGY LEVELS

| | OUTSIDE | FOAM | INSIDE | SEAMS |
|---|---|---|--|-------|
| <p>SELECT</p> <p>THE WARMEST WETSUIT WE'VE EVER MADE.</p>  <p>MAX_FLEX Made from recycled nylon, Max_Flex allows for the same stretch with less effort. Hence providing more flexibility and less pressure on the forearms. The fabric is quick drying and offers maximum comfort.</p>  <p>AMP</p> <p>THE PERFECT COMPOSITION OF THE STRETCH AND WARMTH.</p> | <p>U_FOAM UltraLight_U_Foam is an extreme lightweight and stretchy neoprene. Thanks to its lower density it contributes to heat insulation and better flexibility.</p>  | <p>GRAPHENE PLUSH 2.0 • Large area of Graphene_Plush 2.0 that traps heat retention and is fast drying. • Hot Stuff 3.0 in sleeves - the most stretchy thermo lining in our range.</p> | <p>MAKI_TAPE 2.0 99% Stitches • Only needs 2 glue d seams. • Only needs 1 with flexible external taping, effectively prevent water leakage and enhance the suit's longevity. • Only the neck area remains glued and blind stitched. • Maki_Tape 2.0 on the inside of the seams.</p> | |
| <p>CORE</p> <p>VERSATILE ALLROUNDER WITH PREMIUM FEATURES.</p>  <p>MEDIUM STRETCH A smart combination of materials from higher levels makes sure that this wetsuit will give you a good time on the water.</p>  <p>ELEMENT</p> <p>COMFORT AND PROTECTION.</p> | <p>I_FOAM I_Foam is an extreme lightweight and stretchy neoprene foam. It gently consists of oxysterol powder. Thanks to its lower density it contributes to heat insulation and better flexibility.</p>  | <p>PLASMA PLUSH 2.0 • Outer-layer Plasma_Plush 2.0 on back panel against windchill. • Hot Stuff 2.0 on body and legs for the perfect combination of warmth and stretch. • Silk Stuff on sleeves for high comfort level and more flexibility.</p> | <p>MAKI_TAPE 2.0 Highly elastic neoprene tape reinforces the seams on the lower body and commonly stressed cuff area from the inside. Glued and blind stitched technique to avoid water entering the wetsuit.</p> | |
| <p>ENTRY LEVEL.</p>  <p>STATIC</p> | <p>S_TYPE The S_Type standard foam is made from limestone instead of oil. It offers good stretch and warmth.</p>  | <p>WYLOON Thin nylon lining allows a comfortable wearing experience with freedom of movement.</p> | <p>FLATLOCK Flatlock sewing technique for resistant, yet flexible seams.</p> | |

TECHNOLOGY FEATURES

GRAPHENE_PLUSH 2.0

Graphene is an impossibly light, strong and heat-conducting material. ION integrated this revolutionary material into their new inner lining. The result is up to 20% more warmth compared to ION's Plasma_Plush 2.0 lining. Made from recycled fabrics, Graphene_Plush 2.0 guarantees an incredible drying time for your wetsuit, making sure it's all ways nice and comfy .

PLASMA_PLUSH 2.0

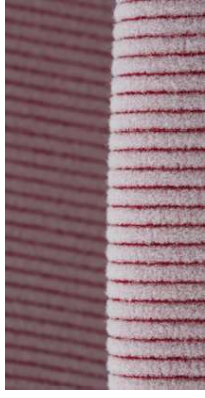

Premium lining offering the best of heat retention and stretch. The high pile fabric traps air for snugly warmth and insulation while the vertically aligned channel structure transports moisture a way quickly – for a dry suit after your break in between sessions.

HOT_STUFF 3.0

The Hot_Stuff 3.0 comes with a plushier feel due to larger loops that trap more air for heat insulation. Made from recycled Nylon, it is the stretchiest thermo lining in ION's entire range.

SILK_STUFF 2.0

Smooth inside lining made from recycled fabrics for a comfortable for a comfortable feeling on bare skin. Despite its snugly appearance it proves to be really hard core when it comes to the interior's superb flexible characteristics.

TECHNOLOGY FEATURES

**RECYCLED_MAX FLEX**

Made from recycled fabrics, Max_Flex is our latest innovation in flexibility and stretch. The unique rhombus-shaped structure of this lining material allows it to be more flexible. Further down the material itself not soak up water but redistributes it on the surface thru small channels. This increases the evaporation of water and reduces drying time.

**ECO_STRETCH**

ION uses recycled nylon fabric for its exterior linings. The material is sourced from nylon waste, but the best thing is that its stretch properties are just as good as in conventional linings.

**SEAM_REINFORCEMENT**

All stress points are reinforced and secured by melco tape from the inside to ensure a longer lifespan of the seams.

**EXO_SHIELD**

Inspired by nature's exoskeleton, the Exo_Shield print on the Select level is designed to shield against windchill, ensuring optimal warmth and providing extra grip when wearing a harness.

**MAKI_TAPE 2.0**

Highly elastic neoprene tape reinforces the seams on the lower body and commonly stressed cuff area from the inside.

**SWEEP_CUT**

Seam-free shoulder design for increased paddle reach and shoulder rotation.

TECHNOLOGY FEATURES

**WATER_DEFENDER**

This patent-pending innovation prevents leg cuffs from folding up due to water flush. Two interchangeable inserts on the inside allow water to drain immediately, keeping you warm and comfortable.

**STITCHLESS SEAMS**

Fully welded and glued seams, reinforced with durable external taping, effectively prevent water leakage and enhance the suit's longevity.

**DRAINHOLES**

Small holes that allow water to exit the suit after a big flush. Drainholes won't let water in.

**ONE HAND ZIPPER**

Opens to the left closes to the right. Can be opened and closed with a single hand. Locked with a clip. Available on Amp level wetsuits.

**GLUED BLIND STITCH**

Glued and Blind Stitched wetsuits are first glued and then with a curved needle halfway stitched thru the neoprene to prevent water entering the wetsuit.

**FLAT LOCK STITCH**

Neoprene panels are laid over each other to be stitched together. This method allows for a very resistant and strong yet flexible seam.

ION JACKETS LINE CONCEPT

ION NEO JACKETS & HOODIES are essential companions for cold and windy days on or off the water. Serving as an additional wind stopping outer layer and for extra warmth, these tops can be worn whilst using a harness due to the harness hole opening. Designed with a relaxed fit, you'll be loving these for action-packed sessions!

NEO TOPS LINE CONCEPT

The ION NEO TOPS are a must-have for every watersports nut hitting the sea or surf in milder climates. Although mainly used in warmer waters to keep the sun and wind off the skin, they can also be used as a second layer underneath your wetsuit. Thanks to the plush, wool-like Hot_Stuiff 2.0 lining, these tops have a luxurious texture that feels great, even on bare skin! NEO TOPS have a more detailed and technical construction than a standard rashguard, providing 100% UV protection, efficient heat retention and a reduction of irritations and bruising often caused by the harness or surfboard.

ION RASHGUARDS LINE CONCEPT

Most ION Rashguards are crafted from 100% recycled PES for ultimate sun protection. Designed for water enthusiasts, our rashguards come in various colorways and styles for both men and women. Made to protect from the sun, abrasion or windchill, you will feel a notable difference.

While most styles are still made from recycled materials, selected rashguards now stand out with additional protective features: The Pro Range offers enhanced wind and UV protection, while the new Surf Shield collection provides advanced cut protection through high-tech performance fibers.

ION WETSHIRTS LINE CONCEPT

ION Wetshirts are where fashion meets function. Made from a quick-dry and stylish fabric, they protect against UV radiation and shield sensitive skin from the harsh elements. Wetshirts can be worn as a trendy tee with shorts at the beach, or with boardies on the water. The range now includes styles with specialized protection: the Storm Pro Wet-shirt is designed for reliable windchill defense, while the Surf Shiled model features cut-resistant fabrics for added safety in critical conditions.

NEO ACCESSORIES

ION NEO ACCESSORIES

In ION's point of view even the smallest items deserve the same dedication and precision as every complex product.

Therefore NEO ACCESSORIES are a small but essential part of the whole equipment and sometimes these small items decide whether you have a great day on the water or you go home in deep frustration.

Extend your session with our selection of NEO ACCESSORIES – protecting you and keeping you warm.

BALLISTIC

The **BALLISTIC** range is our premium line and the *crème de la crème* of water footwear. If you're looking for exceptional warmth and maximum protection then this is the line for you. With support and stretch in all the right places, it's further enhanced with well thought out and cleverly designed features. All of the **BALLISTIC** line have the following standard features to provide supercharged feedback even through layers of Neoprene, plus a little bit more ...

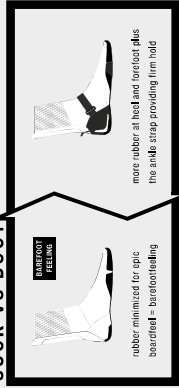

- **Ballistic Sole:** The famous and unique Aramid sole protects against razor sharp reef, mussels and other abrasive objects.
- **Plasma_Plush 2.0:** The premium lining offers the best of heat retention and stretch. The high pile fabric traps air for snugly warmth and insulation while the vertically aligned channel structure transports moisture away quickly.
- **Wrap-Up Sole:** The usual flat sole evolves and wraps around the foot for a snug fit.
- **Segmented Sole:** Further development of the creative and strategic cuttings providing a good mixture between support and flexibility.
- **Max_Flex:** The innovative fabric allowing for maximum flexibility. The material is integrated across the entire upper part making the entry and exit as easy as possible.

PLASMA

The **PLASMA** line will meet the demands of the budget orientated rider looking for quality. Offering a great fit and protection from the elements, **ION** wraps it all up in a splay and unique design. All of the **PLASMA** models have the following standard features:

- **Segmented Sole:** Creative and strategic cuttings have been integrated into the sole to enhance the flexibility in critical areas of the foot.
- **Rubber Wings:** Added support to the vulnerable ankle areas.

SOCK VS BOOT

For those who don't like that string between the toes we offer the **ROUND TOE NO SPLIT**. As the outline shows the **RT** has got a smaller root base than the other models. This ensures a tight fit on each foot and a better heat retention for your toes.

PRO

ION IMPACT & FLOATATION VESTS

Protection has always been one of ION's core values when it comes to developing water sports gear. Whether you're looking for added buoyancy, or peace of mind when on the water, our range of multi-functional vests will boost your confidence so you can take your riding to the next level. Worn by pros, vests have emerged from being kooky to showcasing sophistication and highest riding ability. So don't be a fool - wear a vest.

ION HELMETS

Our helmets with a weight-optimised, yet robust construction and cosy materials on the inside set you up for the wake session, foil adventure and all the other crazy stuff we cannot keep our hands off.

Designed within the Ergo_Concept, they don't only look fancy but fit like no other.

We deeply believe that the rider's health comes first. Meeting and exceeding the highest safety standards, all ION helmets are CE certified.

HARNES TECHNOLOGY FEATURES

ERGO_PAD
The exchangeable Ergo_Pad on the harness inside offers optimal lumbar support in two profiles (medium and high support). For individualized back support & injury prevention.

C_30 BUCKLE
Easy to handle adjustment of the spreader bar webbings with a pleasantly light weight.

KITEKNIFE MULTITOOL 2.0
Integrated into the harness belt. Allows to cut kite lines when in dangerous situations. Parallely functions as tool.

INTERNAL FLEX BELT
A flexible closing belt system on the inside guarantees a snug fit and adapts perfectly to the rider's individual anatomy.

NEOPRENE BELT
A new and improved technical feature, designed to increase the feeling of flex, twist and overall comfort of wave and freestyle riding.

3D PLUS SPINE
The Curv harness range comes with a 3-dimensional version of the PLUS_Spine feature, which results in an even stronger back support.

SIDE PADS
Elevated cushion to fit perfectly around the female waist. Prevents uplift and rip pain. Available in the women hardshell harnesses.

HYDRO CUSH LINER
Non-water absorbent EVA padding. Prevents the harness from riding up or rotating unwillingly.

SPECTRE BAR 2

The SPECTRE Bar 2 is ION's latest innovation in spreader bar technology. Its baseplate is made from carbon infused polyamide, making it incredibly light. Thanks to the bar's stiff properties, riders receive direct feedback. A super-slim and even softer EVA pad minimizes pressure points, allowing you to focus entirely on your riding. Integrated Spectre Flaps on each side prevent the bar from twisting while still following your movements. Lever buckles on both sides ensure even force distribution and make it easy to put on and take off the bar from the harness without undoing the webbing. The bar comes with an aluminum hook and attachment loops.

C_BAR 1.0

The original version of the C-Bar Kitesurf bar comes with a stainless steel hook. The tension lever is built to make life easy while the force is spread symmetrically across the whole bar.

MODULAR SYSTEM

ION offers a modular hook system for every Spectre Bar, allowing you to additionally purchase your preferred hook option. Choose between the Aluminum Kitesurf Hook, Aluminum Freeride Hook, the Slider & Mini Rope set and the Aluminum Windsurf Hook.

TRAVEL GEAR

ION 2026

2026

TRAVELBAGS. GEARBAGS. BOARDBAGS

ION

TRAVEL GEAR

FEATURES

CURV_PLATE

A thermo molded Curv plate ensures great stiffness combined with light weight and durability. The plate is protecting the area that is getting the most friction while traveling.

SHERPA_BELT

The sherpa_belt makes travelling even easier: simply put the belt around your shoulders and have your hands free for all the other stuff you need to take care of while traveling.

LIGHTWEIGHT

Thanks to the use of thin and lightweight ripstop fabric combined with ultra-lightweight foam padding, ION board bags ensure best board protection at minimal weight.

BAG_BREEZE 2.0

Two TPU patches on the front and back of the bag, are combined with the mesh inserts at the front and tail to ensure great ventilation. The mesh inserts are completely EVA padded, perfect to protect your precious board. Say goodbye to a hot damp interior and hello to a breezy bag for your wetsuit and board!

CONNECTIVE_HANDLE

Gone are the days of hauling your boardbag in an awkward fashion across airport floors. ION has developed the Connective_Handle as a simple solution for those tricky times. Using this accessory, you can connect the front handle of the Tec Boardbag to your trolley bag or airport trolley and calmly cruise to the check in counter.

RECYCLED_FABRIC

To make sure lineups won't turn into landfills we are using Waste2Wear® fabrics for our redesigned CORE board bags. Waste2Wear® sources PET bottles from the ocean and turns them into new fabrics.

TECHNOLOGY

FEATURES

ADJUSTABLE SIZE

Easily fine-tune the size with an integrated elastic drawcord, securely positioned at the back of the head. Ensures a snug and personalized fit for all head shapes—on and off the water.

ADJUSTABLE EARSTRAPS

Customizable side straps allow you to adjust the fit around your neck or under the chin. Ensures a secure and comfortable hold, even during high-motion water activities.

VENTILATION

Strategically placed mesh inserts on the sides ensure airflow to keep your head cool under the sun. Designed to let air in while keeping water out—for maximum comfort during action-packed sessions.

SUNGLASS HOLE

Integrated side openings let you securely thread your sunglasses through the hat or cap. Prevents slipping or losing your shades—ideal for high-speed water action.

REMOVABLE NECK SUN PROTECTION

A lightweight neck shield offers extra sun protection and flutters freely in the breeze. Easily attach or detach it with a button—adaptable comfort for changing conditions.

ADJUSTABLE CORD

An integrated cord lets you tighten or loosen the fit around your head—just like a classic bucket hat. Keeps your hat in place, even when the wind picks up.

STORABLE NECK SUN PROTECTION

The built-in neck shade can be easily rolled up and secured with a Velcro tab when not in use. Ready to deploy or stow away in seconds—adapt to changing sun exposure on the go.

| S-M | 52-54 | 20.5-21.5 |
| L-XL | 60-66 | 23.5-26 |

SIZE CHART
WATER

To determine your back length, use a measuring tape to measure yourself from the 7th cervical vertebra (it clearly protrudes) down to your pelvic bone. The sizes are advisory only. All harnesses should be tried on in person.

HARNESS REGULAR TALL REGULAR TALL
