ION

—

Creativity ignites the spirit. It transforms the ordinary into the extraordinary, revealing the vibrant tapestry of our imagination. As we embark on our journey this year, we embrace the notion that every creation is a celebration of individuality and innovation. The exploration extends beyond physical boundaries, inviting us to delve into the realms of thought and inspiration. Explore beyond 2.0 collection put the focus on the creative part of exploring. It's designed to empower individuals to unleash their full potential. It encourages us to take risks, to experiment, and to weave our unique narratives into the fabric of existence.

EXPLORE BEYOND

SAVE OUR PLAYGROUNDS

You rely on our gear every day. That is why it was designed to withstand years of use and is ready for more. Ion products are made from durable and innovative materials, opted by approved suppliers to SAVE our playgrounds.

At last it's about extending our product's lifecycle and we believe less consumption is more for the planet. Nevertheless, building sports gear will always have an environmental footprint. Therefore, we see it as our mission to counteract the development of environmental pollution by doing our best to keep the sea and air clean and our earth healthy.

"Save our playgrounds" is an initiative to coordinate and bundle all actions of our brand to protect our environment. It is paired with steady efforts to minimize our company's footprint whenever possible." We take these efforts very serious because we are responsible for ensuring that also future generations can live the stoke of surfing elements.

For more details check www.ion-products.com/bike/save-our-playgrounds/

PRODUCTION

We are committed to bringing production and marketplace closer together while optimizing our global supply chain structure with new production sites in Europe.

MATERIALS

ION is continuously sourcing for new, innovative and more sustainable materials. We are committed to avoid the use of harmful chemicals by opting for approved materials and suppliers. The majority of our fabric manufacturers are bluesign® and Ökotex 100 certified.

PACKAGING

We invest in sustainable packaging that over time reduces its environmental footprint.

MINDSET

We see it as our mission to minimize the environmental footprint with several efforts in all business areas. partnerships ION relies on the behavior and resources of several key partners who work to improve the way we build our products and conduct our business.

In order to make it easier for our partners and consumer to find our eco efforts in the ION product range, we introduced the product seal "save our playgrounds – fair & clean content".

We commit to the six focus points shown above, and apply this label when achieved all six of them.
