

# Duotone Integrates Stand Up Paddling

As a globally leading multi-brand in watersports, **DUOTONE** is consistently advancing its development and will now bring **Stand Up Paddling** under its brand umbrella.

This decision follows a clear strategy and a deep understanding of how people experience watersports.

As part of **DUOTONE**, SUP becomes a connecting element within a larger whole – the **DUOTONE** universe.

**As a brand, DUOTONE consists of a cohesive system of various watersports disciplines, expertise, technologies, community, experiences, and attitude. Stand Up Paddling seamlessly integrates with the same DNA and expands the spectrum of experiences.**

Thanks to SUP's "easy entry" level, the brand becomes even more relevant for newcomers, serving as a gateway to the other watersports united within the DUOTONE universe.

At the same time, experienced enthusiasts benefit from SUP by having even more opportunities to be on the water.

By consolidating SUP activities under DUOTONE, a clear brand architecture is created that provides orientation, reduces complexity, generates synergies, and strengthens consistency across all watersports categories — from R&D and product development to marketing, communication, and sales, as well as the Duotone Pro Centers. This applies equally to customers and users, as well as employees, importers, partners, retailers, schools, and team athletes.

DUOTONE offers technological expertise, international presence, a strong partner network, and a future-oriented direction. The integration of Stand Up Paddling demonstrates a holistic understanding of watersports. This lays the foundation for the sustainable development of DUOTONE, driven by structure, continuity, and a shared passion for watersports — regardless of individual disciplines.

**Discover freedom on water like never before.**

The all new Duotone Inflatable SUP Range 2026 in SLS Technology redefines performance, portability, and progression for every rider—whether you're chasing glassy dawn patrol cruisers, exploring remote coastlines, or carving your first turns on moving water.

Built with next generation woven drop-stitch materials, machine-welded seams and engineered through Duotone's relentless drive for innovation, the 2026 iSUP lineup sets a new benchmark in stiffness to weight ratio, durability, and ride feel. From effortless touring to dynamic all rounders and compact adventure models, each board delivers the unmistakable Duotone DNA: precision, control, and pure stoke.

For 2026, we introduce advanced fusion core technology, optimized shapes, and refined deck ergonomics—resulting in inflatable boards that don't just compete with hardboards, but challenge the very idea of what an inflatable SUP can be.

Pack small. Paddle big.

Wherever the water takes you, the Duotone iSUP Range 2026 is ready. Engineered to travel, designed to perform, and built to inspire your next adventure.

# Flow Air SLS

Surf / All-Around

Take your riding  
to the next level

**The inflatable SUP board Flow Air SLS is built for riders who want a classic SUP feel with true all-around performance. The brand-new Malibu longboard style shape delivers a smooth, intuitive ride, providing the control needed for rapid progression.**

- **Ultra-Compact Design:** With probably the most compact packing volume in its class, it is the convenient answer to city living and travel demands.
- **Rigid SLS Construction:** The Strong Light Superior technology ensures your paddle strokes are translated into direct drive without the board flexing.
- **Lightweight Advantage:** At only 6.60 to 7.30 kg (depending on the size), it is likely the lightest high-performance iSUP available, making the walk to the water effortless.

The setup is as versatile as the board itself. Equipped with a US Split Box and a Fin iSUP Wave 23, it offers precise tracking and maneuverability across conditions. Practical features like the Tow + Action Cam combo-mount and 4 D-rings for optional seat attachment make it ready for anything from fitness sessions to long coastal tours.

If you want an ultra-light, compact and versatile iSUP that performs across all conditions, the FLOW AIR SLS is your go-to. Built with SLS (Strong Light Superior) construction for travel-ready performance. Discover it now.

Comes with: Fin | Gearbag Pocket | Repair Kit.

DUOTONE

# Raven Air SLS

Touring / Freeracing

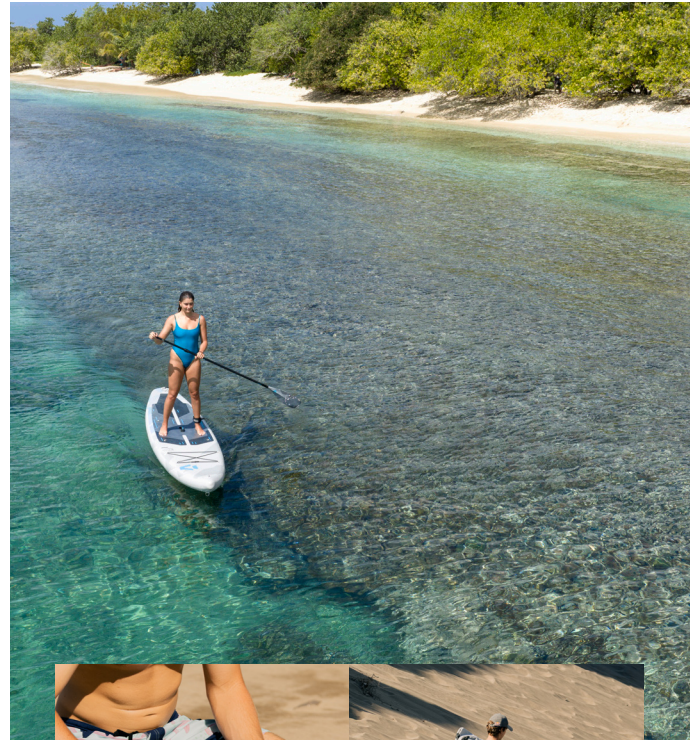

Take your riding  
to the next level

**The inflatable SUP Board Raven Air SLS was developed for riders who refuse to compromise between speed and stability. With 299 L of volume, the board remains extremely tilt-stable and stays on track even over long distances.**

Thanks to the SLS (Strong, Light, Superior) technology and welded seams, it offers a level of stiffness usually only found in hardboards, translating every paddle stroke into clean forward drive. The brand-new shape comes with a diamond tail for an improved water release to give you that extra bit of performance boost.

One of the greatest advantages is its portability: despite its impressive touring dimensions, it is extremely easy to handle and can be packed down compactly for transport by bike or plane. The setup is fully tuned for performance:

the US Split Box with the iSUP Race 23 fin supports clean lines at high speeds.

Additional features such as the Tow + Action Cam combo-mount, 4 D-rings for an optional seat attachment, and the Lashing + Shoulder carry system make it a versatile partner for extended adventures.

Recommended for riders up to 100/110 kg, the RAVEN AIR SLS is your performance-driven inflatable touring SUP—fast, stable, and ready for every mile.

If you're looking for an inflatable touring/freeracing iSUP with real glide, stability, and effortless straight-line performance, the RAVEN AIR SLS is ready to go the distance. Explore further, paddle smarter, and enjoy every mile - discover it now.

Comes with: Fin | Gearbag Pocket | Repair Kit.

DUOTONE

# Blitz Air SLS

Touring / Exploring

Take your riding  
to the next level

**The Blitz Air SLS is your sporty, travel-ready inflatable SUP for touring and exploring, built to feel fast, stable, and effortless on the water.**

With its straight outline, the board glides cleanly and tracks efficiently, so every paddle stroke feels direct and rewarding. The increased width adds confidence when the water gets choppy or when you're navigating rivers, giving you a stable platform that stays calm and predictable under your feet.

The BLITZ AIR SLS delivers a balanced ride: smooth cruising speed with enough stability to relax, progress, and enjoy longer sessions. The 6" / 15 cm thickness supports a stiff, supportive feel, while the SLS (Strong Light Superior) welded construction keeps it strong, durable, and easy to handle, perfect for city life, limited storage, and travelers.

One of the biggest highlights is the convenience: probably the lightest and most compact iSUP board in its class, it's incredibly easy to carry, pack, and take anywhere. On the water, it feels light and responsive, yet planted and secure—ideal for exploring new shorelines and covering distance with control.

The BLITZ AIR SLS comes fully equipped with a US Split Box and iSUP Race 23 fin for reliable tracking. Recommended rider weight is up to 100 kg.

Finally we have added a couple of brand-new features to our iSUP range:

- Additional D-rings in the back for optional seat attachment
- TOW + ACTION-CAM COMBO-MOUNT
- LASHING + SHOULDER COMBO-STRAP

If you want an inflatable SUP Board for Touring & Exploring that's light, compact, and confidence-inspiring in real conditions, the iSUP board BLITZ AIR SLS is your go-to. Pack it small, paddle far, and explore more. Discover the BLITZ AIR SLS now.

Comes with: Fin | Gearbag Pocket | Repair Kit.

DUOTONE

# Grace Air SLS

Women / All-Around

Take your riding  
to the next level

**The GRACE AIR SLS is your all-around inflatable SUP, tailored towards women who want a classic board feel with modern travel-ready performance.**

The iSUP board GRACE AIR SLS is built to perform across a wide range of conditions - from smooth flatwater cruising to choppy waters, with a ride that stays controlled, stable and confidence-inspiring. Tailored towards women, it delivers an easy, confidence-building ride that feels stable under your feet, smooth through the water and controlled when conditions get rougher.

With its brand-new shape, the GRACE AIR SLS isn't just about a clean look, it's designed to be super versatile for entry/intermediate-level allround riding. The board feels composed and balanced, giving you that "step on and go" comfort while keeping handling predictable as you progress.

One of its biggest strengths is portability: it's most likely one of the lightest iSUP boards out there, with compact packaging dimensions that make it the convenient answer to limited storage, city life and travellers' demands. Strong, stiff and durable thanks to the completely overhauled SLS construction (Strong Light Superior), it keeps your ride stable and efficient - so you stay in control and paddle smoother, longer.

We offer 2 different shape concepts for the GRACE AIR SLS:

- The 10'2" is identical in shape to the FLOW AIR SLS making it ideal for flatwater up to moderate waves.

- The 11'4" size features the same shape than the BLITZ AIR SLS which makes it the ideal Touring/Exploring board.

Finally we have added a couple of brand-new features to our iSUP range:

- Additional D-rings in the back for optional seat attachment
- TOW + ACTION-CAM COMBO-MOUNT
- LASHING + SHOULDER COMBO-STRAP

If you're looking for an ultra-light, compact and versatile iSUP designed for women, the GRACE AIR SLS is your go-to choice. Strong, stiff, travel-ready — and built for progression. Discover it now!

Comes with: Fin | Gearbag Pocket | Repair Kit.

 DUOTONE

# Alfa WS AIR

All-Around / Windsurf

**Unleash your  
potential**

**The iSUP board ALFA WS AIR redefines entry-level performance by combining two disciplines into one premium platform.**

The brand-new Malibu longboard style shape provides a stable and versatile base that excels in various conditions.

**Optimized Volume & Stability:** With a generous volume and a width the board offers maximum stability, ensuring confidence for beginners.

- **Durable Performance:** Utilizing our Fused Double Layer construction and welded seams, this board is super durable perfectly suited even for harsher Windsurf usage.
- **Comfort & Safety:** The soft deck pad provides excellent grip while remaining forgiving during falls, making it ideal for the whole family.

This board is the ultimate solution for those who want a classic board capable of performing across a wide spectrum. It features a mastfoot insert including our patented iBase, allowing for an instant transition into windsurfing when the breeze picks up. The setup is highly adaptable, featuring 2 x US Boxes and 2 x Fin iSUP Race 23 for clean tracking and control. Additional features like the Tow + Action Cam combo-mount and the Lashing + Shoulder combo-strap enhance your adventure, whether you're touring a coastline or teaching the next generation in a club environment.

**BASED ON THE FLOW SHAPE INCL. WINDSURF MASTFOOT INSERT**

Stretched outline with good glide and plenty of stability/flotation and your first Windsurf experience

**2 SHORT CENTER FINS**

Removable center fins – no tools required - use center fins for excellent upwind performance and stability when windsurfing

The ALFA WS AIR is the most versatile, performance-oriented entry-level board for riders up to 100 kg. It delivers a premium experience for both paddling and windsurfing in one portable package. Discover the freedom of the ALFA WS AIR now.

Comes with: Fins | Gearbag Pocket | Repair Kit.

# Now Air SLS

Kids / All-Around

## Maximum Performance, Minimum Weight: The Future of Youth Paddling .

The inflatable SUP board Now Air SLS is engineered to bring the Duotone performance experience to the next generation. Its brand-new Malibu longboard style shape doesn't just look cool; it provides a versatile platform that excels in everything from entry-level all-around flat water sessions to catching those very first small waves. By focusing on a generous width-to-length ratio - 28" / 71.1 cm width at a 7'10" / 238.8 cm length - we've created a board that offers incredible stability and confidence for smaller riders.

## High-Tech Portability for active Kids

At only 5.00 kg, it is likely the lightest iSUP on the market, allowing kids to handle their own gear with ease. The SLS technology, combined with a welded construction, ensures that every paddle stroke is translated into direct glide without the board flexing. With a compact 20 L packing volume, this board fits into any lifestyle, whether you are heading to the lake on a bike or traveling across the globe.

## Versatile setup and daily ease

The setup is as simple as it gets. Equipped with a US Split Box and a Fin iSUP Wave 23, it offers great tracking and maneuverability. Practical details like the Tow + Action Cam combo-mount allow kids to capture their progression, while the Lashing + Shoulder combo-strap makes the walk to the water effortless.

The NOWAIR SLS is the high-performance, ultra-portable solution for kids up to 55 kg who want to explore the water on their own terms. It is stiff, durable, and ready for any adventure. Discover the next level of youth SUP now.

Comes with: Fin | Gearbag Pocket | Repair Kit.

Unleash your  
potential

# Flow Air XXL

## Paddle Group & Schooling

**The inflatable SUP board Flow Air XXL is engineered to bring professional performance to the group experience**

Featuring a brand-new Malibu longboard style shape, it delivers a cool aesthetic combined with maximum versatility for flat water or small waves.

- **Extraordinary Volume:** With a massive 1350 L of volume, it remains stable even with a full crew of up to 500 kg.
- **Stiffness & Durability:** The double-layer Fusion material provides the necessary rigidity to keep the board flat and efficient while multiple people paddle simultaneously.
- **Safety First:** Multiple soft handles allow everyone to hold on securely when going down a wave or to easily transport the board on land.

The FLOW AIR XXL is the most versatile large-scale iSUP available. Beyond standard paddling, it features two mastfoot inserts, allowing groups to try tandem windsurfing—an ideal feature for schools and clubs. The setup includes 4 glued HD fins and a GoPro/towing mount, ensuring clean tracking and the ability to capture every moment of the session. It excels as a platform for team building, school classes, or simply as the ultimate family fun station at the beach.

If you are looking for the perfect tool for groups and schools, the FLOW AIR XXL delivers unmatched stability and fun. It is the extra-strong, stiff, and versatile answer to any group adventure on the water. Discover it now.

Comes with: Fins | Gearbag Pocket | Repair Kit.
