

WHO WE ARE

Roxa is a family-owned company, located in Asolo, Italy at the foot of the majestic Dolomite mountains.

Founded in 1987 by four brothers (Rosato), the company's early focus was as an OEM factory for many of the large ski boot brands in the region.

Over time the factory emerged as a leader in quality manufacturing, state-of-the-art technologies, and superior fit. So, it was only natural that the Rosato brothers launch their own brand of ski boots - And Roxa was born!

Today, Roxa is firmly established as a major ski boot brand and an industry leader in innovation, with global distribution and thousands of happy skiers. Also, many of the world's best skiers, such as Glen Plake, choose to ski in Roxa.

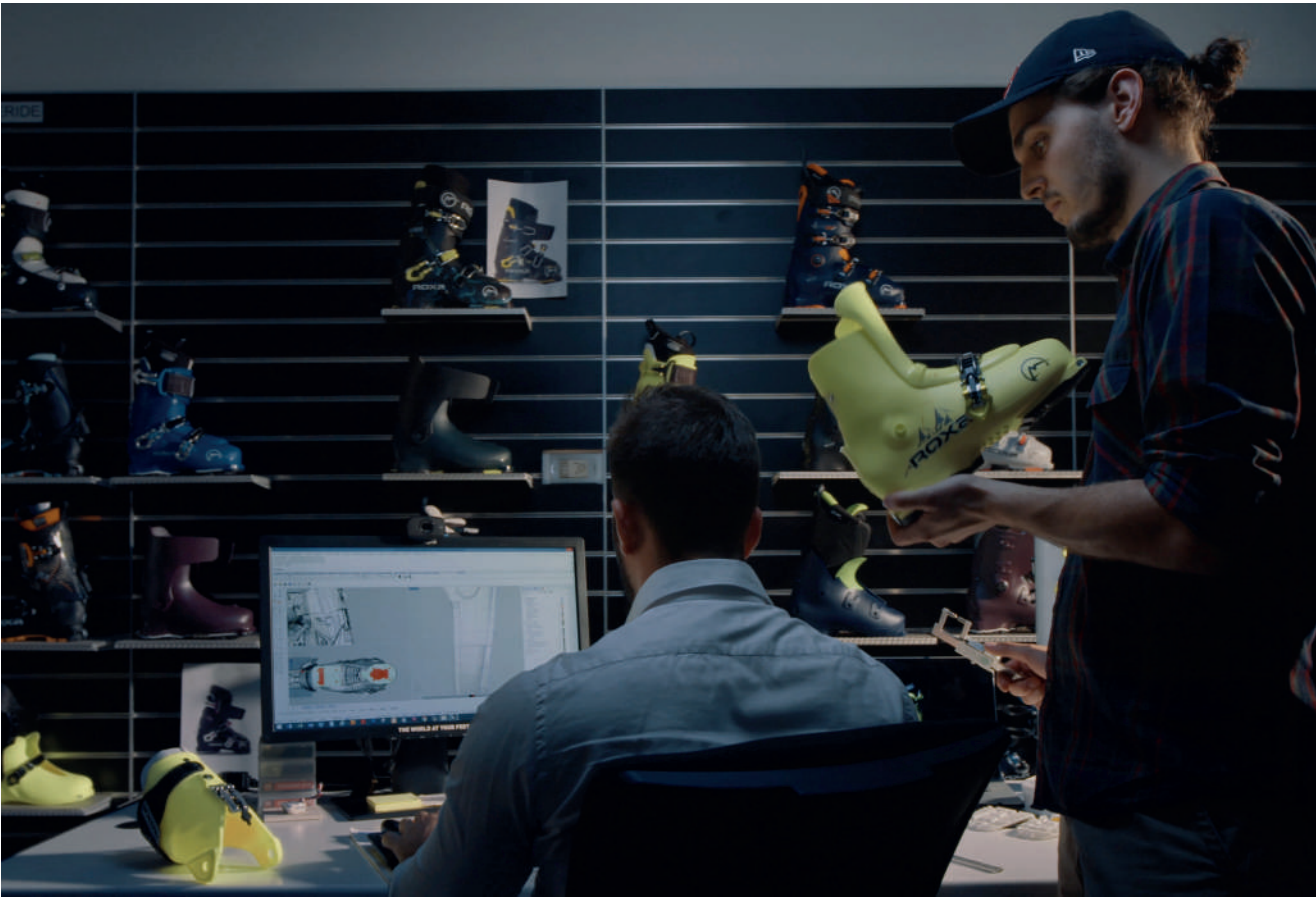

You'll still find the four Rosato brothers hard at work in the factory. Where, along with the next generation of family members and their experienced production team, they tirelessly push the boundaries of ski boot design and superb fit.

ROXA: Innovation, Quality, Family owned, and proudly Made In Italy!

WHAT WE DO

WE FOCUS

As an independent ski boot brand, we are laser focused. Everything we do is driven by our passion to make the world's best ski boots. Exhilarating performance, outstanding fit, and sexy styling. **No Compromise.**

WE DESIGN

Utilizing state of the art CAD design technology, 3D printed prototyping and cutting edge polymers, we are able to reduce excess thicknesses and weights so as to guarantee maximum lightness and comfort while providing the excellent performance of our boots.

WE PRODUCE

Roxa only uses state of the art polymers such as Grilamid® and the best selection of PU and PP for all the Roxa range. These polymers are the finest

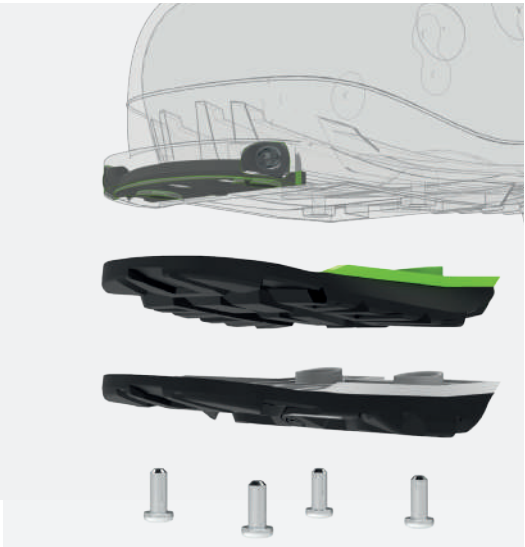

materials available in ski boot design in terms of performance, weight, durability and being least effected by cold temperatures.

Best in Class technical polymers. Grilamid is Ultra-lightweight, durable and almost unaffected by cold temperature.

Engineering grade polyurethane (PU+) designed specifically for cold weather application, excellent molding properties.

WE INNOVATE

Roxa hold's several patents and are constantly shaking up the status-quo of ski boot design.

We own the patent for **fully integrated tech inserts**, combined with interchangeable soles.

Roxa models with tech inserts fitted with GripWalk soles can also accept Vibram® touring norm soles or flat alpine soles for unlimited use and versatility with no compromise in performance.

ROXA ARCHITECTURES

Roxa offers two types of architectures, both highly performing and cutting-edge but each targeted to their ideal range of use.

CABRIO ARCHITECTURE

This unique technology combines a 3 piece construction: **Shell (1)**, **Cuff (2)** and **Tongue (3)**.

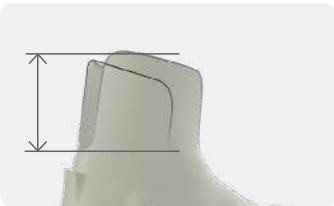

Benefit

BALANCED FLEX
QUICK REBOUND
VERSATILITY

Comfortably secures the foot and lower leg while optimizing smooth and balanced flex. Cabrio boots are extremely versatile and excel in variable terrain and snow conditions.

Cabrio key features

HIGH SHELL WALLS

Tenacious lateral power and control without making the boot overly stiff forward.

POLYAMID TONGUE

Delivers smooth forward flex with quick rebound. Maintains contact with the skiers leg throughout the turn and provides excellent shock absorption.

OPEN THROAT SHELL

Accommodates a high range of hike function without compromising performance. Allows easy entry and exit.

OVERLAP ARCHITECTURE

Contemporary 2 piece construction composed by: **Shell (1)** and **Cuff (2)**.

Benefit

PROGRESSIVE FLEX
POWER AND PRECISION
SNOW SENSITIVITY

2 piece overlap design provides power and precision. Overlap boots really shine on groomed, firm surfaces.

Overlap key features

CAD ENGINEERED

Roxa R/Fit models are ultralight while maintaining incredible structural strength.

DIRECT TRANSMISSION

The modern stance geometry and flex pattern provide power, control and excellent edge hold.

EASY ENTRY

Soft polyurethane panel insert at the instep allows for smooth, easy entry and exit.

BIOFIT SYSTEM

WHAT IS BIOFIT

Anatomic last shaping with pre-molded relief in the most common fit “issue” areas:

- NAVICULAR
- ANKLE BONES
- 1ST METATARSAL
- 6TH TOE

BIOFIT LAST WIDTHS

Precise Fit

99-101 MM BIOFIT

Precise fitting, anatomic fit for discerning high performance skiers.

Used in:

- R3
- Element

Tapered Fit

100-102 MM BIOFIT

Anatomic 100 mm last with a tapered fit in the mid and forefoot area.

Used in:

- R/Fit MV

Relaxed Fit

102-104 MM BIOFIT

Anatomic 102-104 mm last with an emphasis on a user-friendly fit in the mid and forefoot area.

Used in:

- R/Fit HV
- R/Fit Hike

BIOFIT CM (Custom moldable)

Fast, easy process allows for heat customization in minutes using a typical boot oven.

All BioFit shells (Grilamid and PU+) can be molded by qualified bootfitters.

LINERS

FIT IS KING

Whether it is working with Intuition®, the worldwide leader in after-market liners, or with our own proprietary liners, Roxa spares no effort to provide the best fit in the industry.

I.R. = INTUITION / ROXA®

Custom produced by Intuition® specifically for Roxa, 100% Heat moldable, ultra-comfortable and lasting fit. Light weight and cozy warm.

I.R. TONGUE

Freeride, Freeski

Light, easy to fit and provide outstanding skiing as well as striding.

I.R. WRAP

Freeride, Freeski

Outstanding custom fit combined with shock absorption and warmth.

ROXA ULTRALON

Premium quality liners featuring Ultralon EVA Foam. The most sought after EVA used in ski boots. It offers the best molding qualities along with a lasting fit. Ultralon is also very light and warm.

Ultra -Thin active insulation Technology in **all of our Biofit 4D & U75 liners**. 50% increase warmth, reflective aluminum membrane climate control, breathable and anti-bacterial.

4D BIOFIT

All mountain, All mountain high perf.

Pre- molded 3D insert combined with Ultralon EVA Foam.

Now with Win-Therm insulation technology

U75

Freeski, Freeride, All-mountain

Utilizes Ultralon in 75% of the liner (heel pocket and tongue)

Now with Win-Therm insulation technology

U50

Freeride, All-mountain

Utilizes Ultralon in 50% of the liner (heel pocket)

LEGEND TECH ICONS

I.R. (INTUITION/ROXA) LINERS
-Superior warmth comfort and durability
-High performance, ultralight
-Low pressure, full-contact fit
-100% heat-moldable

ULTRALON FOAM
Ultralon developed a high quality foam renowned for its superior thermoforming ability, high level of insulation and excellent durability.

GRILAMID INJECTION
Grilamid is the state of the art in technical polymers. Lightweight, durable and unaffected by cold temperatures.

WIN THERM
Ultra -Thin insulation Technology in all of our Biofit 4D and U75 liners. 50% Increase warmth, reflective aluminum membrane climate control, breathable, anti-bacterial.

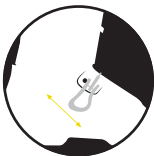

DYNAFIT BINDING / KINGPIN BINDING
RX is certified for Dynafit and Marker Kingpin inserts personalizations and all tech insert equipped R3 models.

TRIDENT BI-INJECTED CUFF
Powerful, highly anatomic and light weight cuff designed with bi-injected reinforcement in the spine and hinge interface areas for outstanding fit-to-strength ratio.

HEEL LOCK BUCKLE
Independently functioning instep buckle is positioned at a 45° angle securing the heel during all phases of skiing and hiking.

OPTI LOCK INSTEP BUCKLE
Two position buckle location allows for perfect instep fit and foot hold.

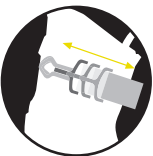

ADJ. FORWARD LEAN
New aluminum shell insert can be exchanged with +2° insert. (spare part in box)

NEXT GEN CABRIO
Use of advanced CAD Design technology, 3D Printed prototyping, and cutting edge ultralight polymers achieves minimal form with outstanding strength-to-weight ratio.

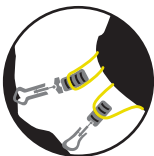

NEXT GEN OVERLAP
New 2-piece ultralight overlap design provides power and precision. Use of advanced CAD Design technology, 3D Printed prototyping, power the evolution of the traditional "overlap" ski boot.

EASY STRIDE POWER STRAP BUCKLE
Powerstrap allows for excellent boot top closure as well as accommodating any leg shape. Easy stride buckle function extends stride range when opened in the walk phase.

EASY SKI-HIKE LOCK
The ski-hike cuff lock allows for easy striding when open and uncompromising performance when locked.

ERGONOMIC BUCKLE CABLE SYSTEM
System adapts to the shape of the shell for perfect fit and minimal bulk or weight.

WOMEN'S SPECIFIC CUFF
Women's specific upper cuff provides reduced height and "scalloped" shape to comfortably accommodate women's calf shapes.

D.R.I. CHASSIS TUNING
The Dynamic Response Insert shortens range of flex while still providing excellent shock absorption. Lighing quick response and power for outstanding all mountain performance.

C.A.C. ADJ CUFF
Calf Adapt Cuff easily adjust to increase boot top circumference by 1.5 cm.

ADJUSTABLE FLEX
The setting of "hard and soft" allows the skier to adjust the flex of the boot.

BIOFIT LAST
Anatomic fit last with pre-formed relief in the most common fit "issue" areas – ankle, navicular, 1st metatarsal, 6th toe.

BIOFIT CM
Offer the ability for a qualified ski shop bootfitter to mold the shell.

EASY ENTRY SYSTEM
Soft polyurethane panel insert at the instep allows for smooth, easy entry and exit.

ROXA TEAM

The Roxa team is one of the most important pieces of the company's engine. In addition to being some of the world's most recognizable skiers, they also provide feedback, testing, and inspiration for the development of new products.

GLEN PLAKE

MAXIME CHABLOZ

MATTHIAS GIRAUD

AND: Cody Wilder Ray, Lupe Hagearty, Justin "Juice" Kennedy, Dean Bercovitch, Samuel Alander and many more...

HOW THE WORLD SEES US

Roxa's products and skiers are setting new standards and climbing to new heights every season. Whether it is magazine test awards, top competition results or conquering the most challenging terrain in the world, Roxa is leading the charge.

FREERIDE

R3 series

The lightest high performance alpine ski boot series ever offered! Sleek next generation Cabrio architecture designed for skiers to tackle any terrain in any conditions.

99 - 101 MM
BIOFIT LAST

Precise fitting, anatomic fit for discerning high performance skiers. All R3 models are heat moldable.

ADJUSTABLE FLEX

Primary flex mode is "Soft" mode. Aggressive or heavy skier use "Hard".

HIKE MECHANISM

Light weight yet strong ski/hike cuff lock mechanism.

ADJUSTABLE FORWARD LEAN

New aluminum shell insert can be exchanged with +2° insert. (spare part in box)

EASY STRIDE BUCKLE

Powerful, lightweight and easy top closure. Easy slide buckle function extends stride range when opened.

HEEL LOCK BUCKLE

45°angle provides to most secure heel hold possible. Independent cable/buckle assembly constantly holds throughout flex range.

POLYAMID DUAL-TONGUE

Innovative two-piece, hinged, split tongue design. Increases stride range (52° ROM) while still providing outstanding downhill performance.

ALL MOUNTAIN HIGH PERFORMANCE

R/FIT MV series

Powerful, Lightweight, Streamlined, Next Gen 2 piece overlap design with modern stance geometry and Roxa's relentless commitment to fit.

100 - 102 MM
BIOFIT LAST

Anatomic 100-102 mm last with a tapered fit in the mid and forefoot area provides pre-molded relief in the most common fit issue areas. All R/Fit MV models are heat moldable.

TRIDENT
BI-INJECTED CUFF

Powerful, highly anatomic and light weight cuff designed with bi-injected reinforcement in the spine and hinge interface areas for outstanding fit-to-strenght ratio.

DUAL CANTING

Medial and lateral shaft alignment allows for perfect alignment.

4D BIOFIT LINER

Premolded 3D insert combined with Ultralon EVA ankle padding provides outstanding customized fit, light weight and warmth. Heat moldable for customization.

Win-Therm Insulation

Ultra-Thin insulation technology increases 50% warmth, reflective aluminum membrane climate control.

EASY ENTRY

Soft polyurethane panel insert at the instep allows for smooth, easy entry and exit.

CONTOUR-WRAP SHELL DESIGN

Highly anatomic shaping and progressively tapered overlap provides incredible, pressure-free, foot wrapping as the boot is buckled.

OPTI-LOCK BUCKLE

Adjustable instep buckle. Two position buckle location allows for perfect instep fit and foot hold.

ALL MOUNTAIN

R/FIT HV series

The lightest sport performance ski boot series ever offered! Streamlined, Next-gen 2-Piece Overlap architecture designed for skiers to enjoy outstanding all mountain performance and ski better in comfort.

102-104 MM
BIOFIT LAST

Anatomic 102-104 mm last provides pre-molded relief in the most common fit "issue" areas. BioFit CM can be heat molded in a conventional "Boot Oven" to gain additional volume.

**(C.A.C.)
CALF ADAPT CUFF**

Easily adjust an additional 1.5 cm of cuff expansion to accomodate large calf sizes.

BIOMETRIC STANCE

R/Fit stance angles provide effortless skiing and less fatigue. Allows skiers to easily find the sweet spot on their skis.

U75 & U50 LINERS

Ultralon is the best EVA foam available for ski boot liners. Heat moldable ankle pocket and tongue (U75) provide outstanding customized fit, light weight and warmth.

Win-Therm Insulation

Ultra-Thin insulation technology increases 50% warmth, reflective aluminum membrane climate control.

ALL MOUNTAIN

R/FIT HIKE series

The lightest series of sport performance all mountain ski boots ever offered.

102 -104 MM
BIOFIT LAST

Anatomic 102-104 mm last provides pre-molded relief in the most common fit "issue" areas. BioFit CM can be heat molded in a conventional "Boot Oven" to gain additional volume.

(C.A.C.)
CALF ADAPT CUFF

Easily adjust an additional 1.5 cm of cuff expansion to accomodate large calf sizes.

SKI-HIKE CUFF

Stout hike mechanism allows easy release of the upper cuff for striding to access terrain, walk to the lodge or enjoy your après.

PU +

Polymer provides outstanding structural strength with ultralight weight. PU+ also provides excellent heat molding capability.

EASY ENTRY

Soft polyurethane panel insert at the instep allows for smooth, easy entry and exit.

TOURING

RX series

Pure touring. Lightweight. Minimalist design yet powerful enough to drive big skis in any conditions.

99 MM
BIOFIT LAST

LOCK BUCKLE
The construction keeps the buckle locked in the open position while hiking.

EASY SKI-HIKE MODE
Light weight yet strong ski/hike cuff lock mechanism.

RANGE OF MOTION (ROM)
Stride range with hike mode open and powerstrap buckle forward is 62° degree.

HEAT MOLDABLE LINER
RX series liners are heat moldable, warm and extremely light weight.

TECH BINDING
Certified for Dynafit insert and all tech bindings.

AFTERMARKET

ACCESSORIES

SOLES

All Roxa R3 and R/Fit models have interchangeable soles.

VIBRAM® SOLE

Vibram® rubber AT Norm soles provide superior traction and durability.

Available in:

All R3 and R3 W TI models
(AT binding compatible only)

ALPINE SOLE

Classic “DIN” alpine replacement soles.

Compatible with:

R3 Element

R/Fit MV R/Fit

GRIPWALK® SOLE

Bi-Injected rockered soles make walking easy without compromising binding performance (GripWalk bindings)

Compatible with:

R3 Element

R/Fit MV R/Fit

GRIPWALK® JUNIOR

GripWalk soles developed for junior ski boot dimension (up to size 21.5)

Compatible with:

Lazer, Bliss, Raven 1 e 2

TONGUES

DUAL TONGUE

2-Piece hinged dual-tongue. Available in 3 stiffness's (A, B, C) only as aftermarket.

Compatible with:

R3 Element

R3 TONGUE

One piece nylon tongue available only in black. Available in 4 stiffness's (A, B, C, D) only as aftermarket.

Compatible with:

R3 Element
