PROTECTION
segment

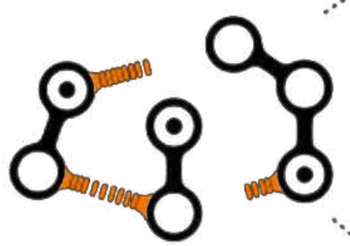

Rider: Dylan Van Hoeij I Photo: Dugi I Location: Oslo, Norway

RZ-LABs Technology

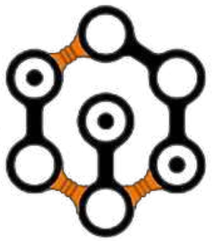

RZ materials provide protection through numerous intelligent molecules

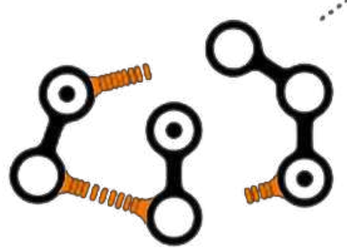

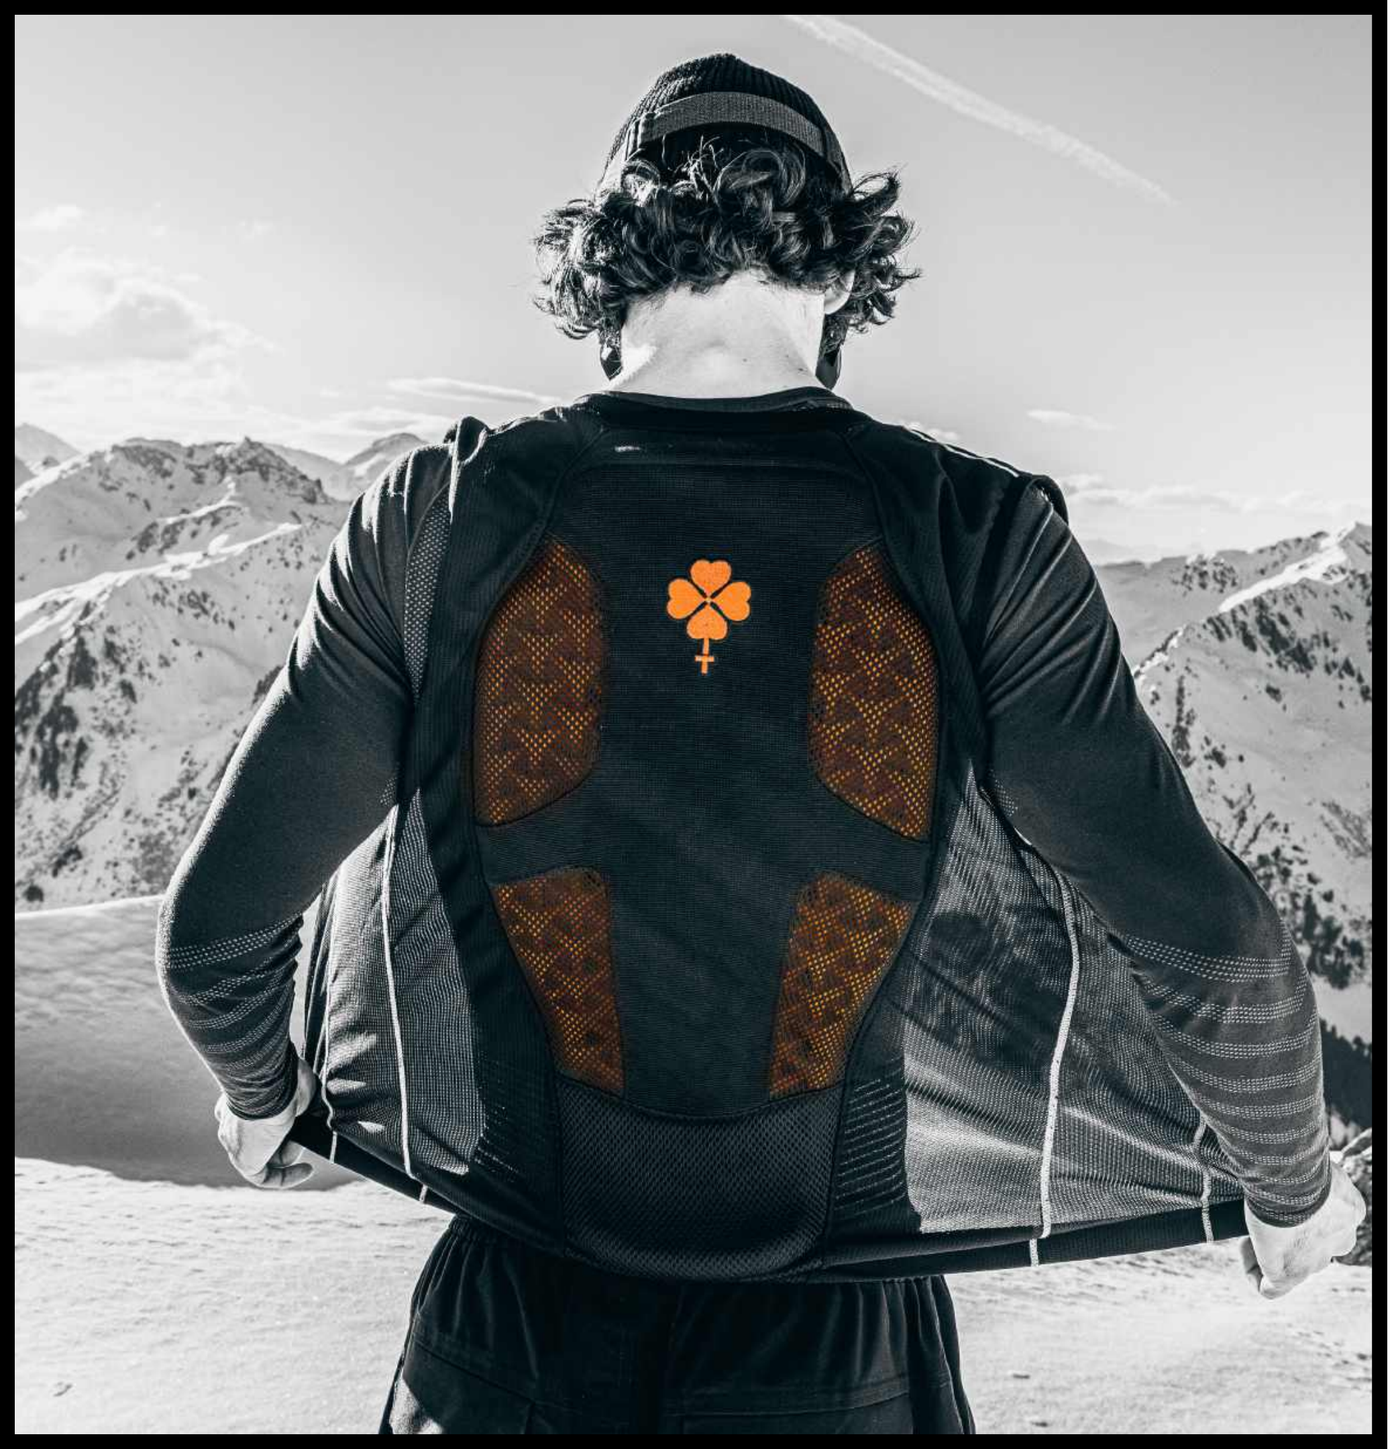

These individual molecules remain seperate while pedaling resulting in a soft and flexible pad

Upon impact, these molecules gather and stiffen to form a protective shell

After impact, these molecules return to their natura soft state. The splitting and recombination of secondary bonds dissipates the impact force.

the Backprotector

Light on your back. Heavy on protection.
This no-nonsense back protector is so light and breathable, you'll forget it's there—until it counts.

- RZ-LABs Technology for ultimate impact protection
- T1 Certified –proven safety standards
- Available sizes: XXS, XS, S, M, L, XL, XXL (1)
- Hyper-ventilated for all-day comfort
- Washable design with removable back shield
- YKK zipper for long-lasting durability
- Grippy silicone waistband for a secure fit
- Embroidered logo with a premium finish

Our RZ Labs Technology is designed to stay flexible while you move but instantly stiffens on impact, keeping you safe when things don't go as planned. It's protection that moves with you, not against you.

Every detail is built for performance and comfort: washable construction, premium YKK zippers, and a silicone waistband that stays put no matter how wild the ride gets. And yes—it looks as good as it feels.

the Crashpants

Our no-nonsense crash pants are so light and breathable, you'll forget you're wearing them—until it matters. With RZ Labs technology, the flexible shield instantly stiffens on impact, keeping you protected when you need it most.

- RZ-LABs Technology for advanced impact protection
- T1 Certified – proven safety standards
- Available sizes: XXS, XS, S, M, L, XL, XXL (1)
- Hip padding for added comfort and coverage
- Tailbone shield – because that's where you need it most
- Silicone logo with a sleek finish
- Elastic waistband for a snug, secure fit
- Washable design with removable protection pads
- Grippy legbands to keep everything in place

Crash pants that actually do their job. The Clover Crashpants are built around one essential truth: tailbone protection matters. While many crash pants leave that spot exposed, we've made sure yours doesn't.

(1) See sizecharts page 34

the Kneepads

Light to wear. Tough on impact.
These streamlined kneepads feel almost weightless and stay fully breathable, so you forget you're wearing them—right up until they're needed. RZ Labs tech keeps the pad flexible in motion and instantly rigid on impact for superior shock absorption.

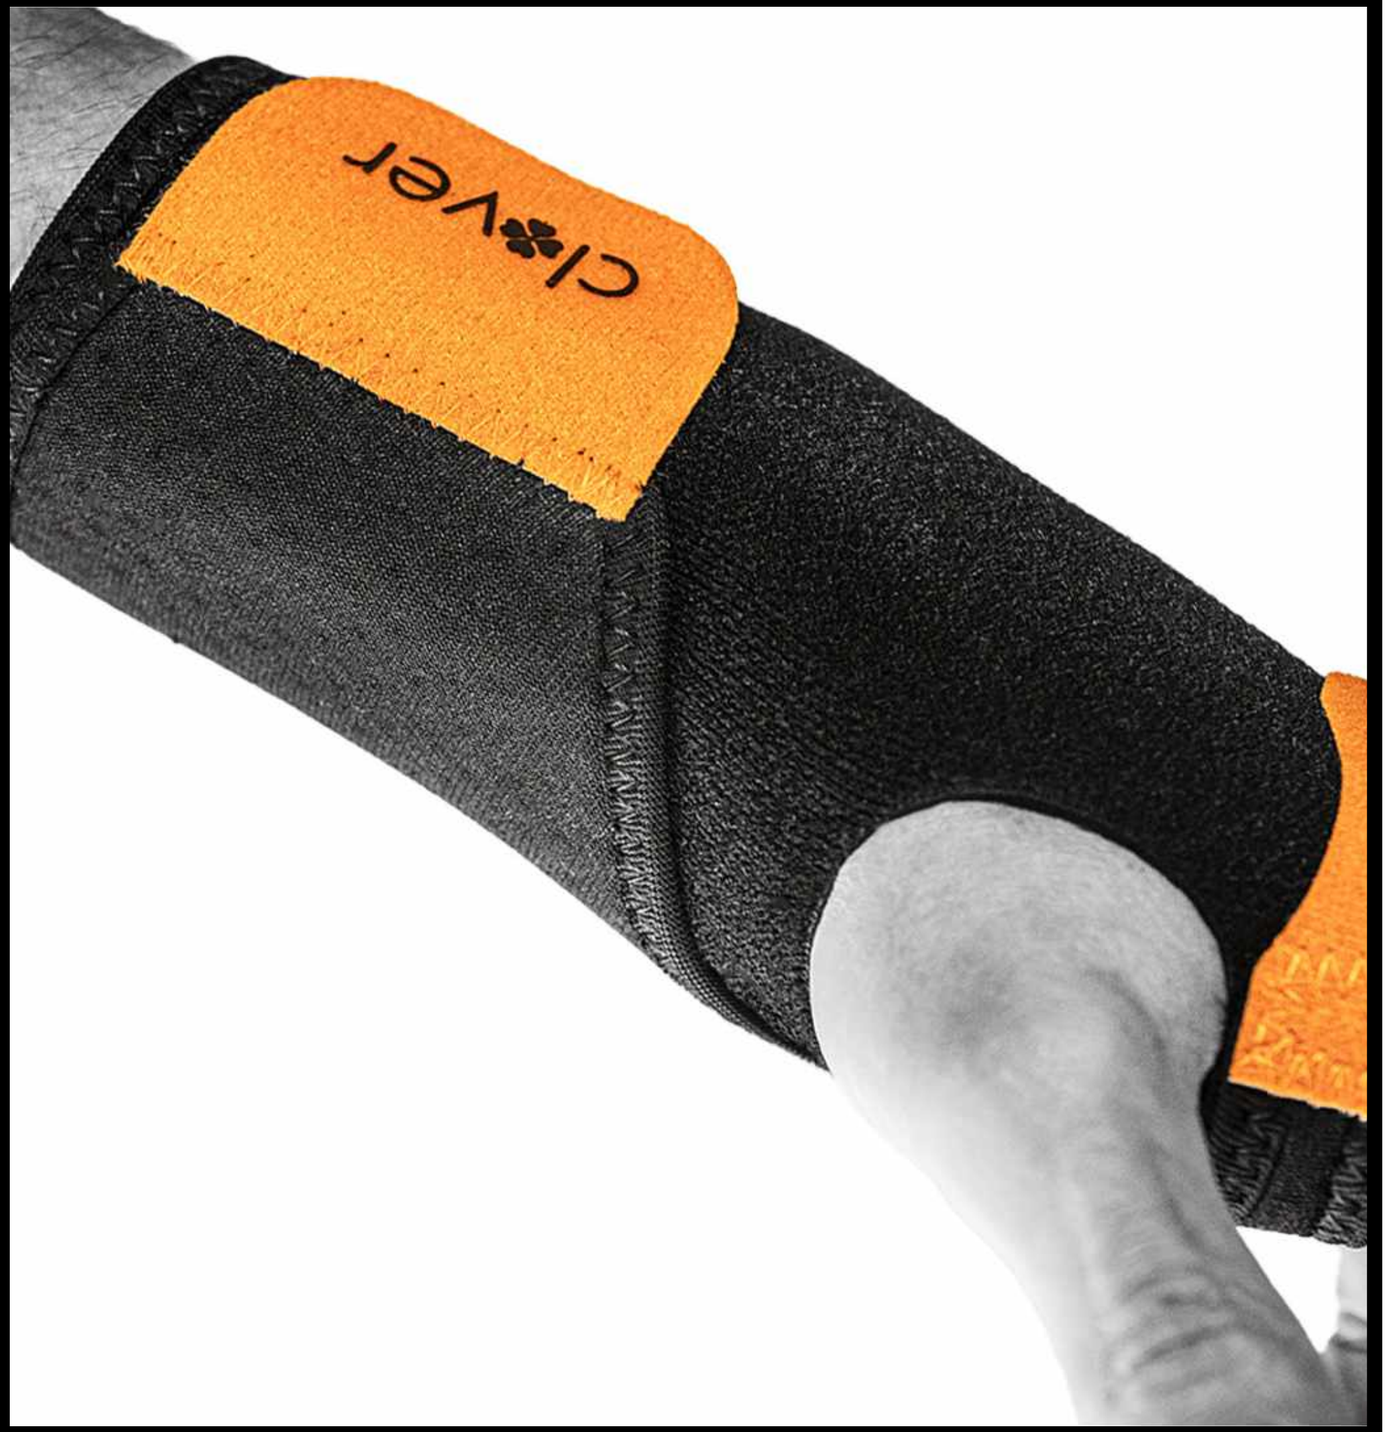

- RZ-LABs Technology for smart, impact-reactive protection
- T1 Certified – proven safety standards
- Available sizes: XXS, XS, S, M, L, XL, XXL (1)
- Hyper-ventilated design to keep you cool and comfortable
- Washable construction with removable shield
- Grippy legbands for a secure, stay-in-place fit
- Connected strap system for stability and all-day comfort

Meet the kneepads that do what they're supposed to do—protect you, without slowing you down. The Clover Kneepads are feather-light, highly ventilated, and so comfortable you'll forget you're even wearing them… until you need them most.

(1) See sizecharts page 34

the Wristguards

Built for riders who want protection without the bulk.
Our ultra-slim, ergonomic wrist guard slides effortlessly under any glove, giving you full freedom of movement while keeping your wrists supported when it counts.

- Ultra slim design
- Ergonomic fit
- Works with all gloves
- Flex shock absorption
- Washable
- Wrist fixation on top & bottom
- Soft hook&loop velcro
- Available sizes: XS, S, M, L, XL (1)

The flexible shock-absorbing core disperses impact energy without restricting mobility, while dual top-and-bottom wrist fixation ensures stable alignment in every turn, landing, or slide. Finished with our next-gen soft hook-and-loop system, it fastens securely without snagging your gear.

BOARDBAGS
segment

Traveler: Leon Bastien I Photo: Dugi I Location: Haneda, Japan

the sleeve of Love

Give your board the care it deserves. The Sleeve of Love Boardbag keeps your setup safe, clean, and ready for action—whether you're traveling, storing it, or on the go..

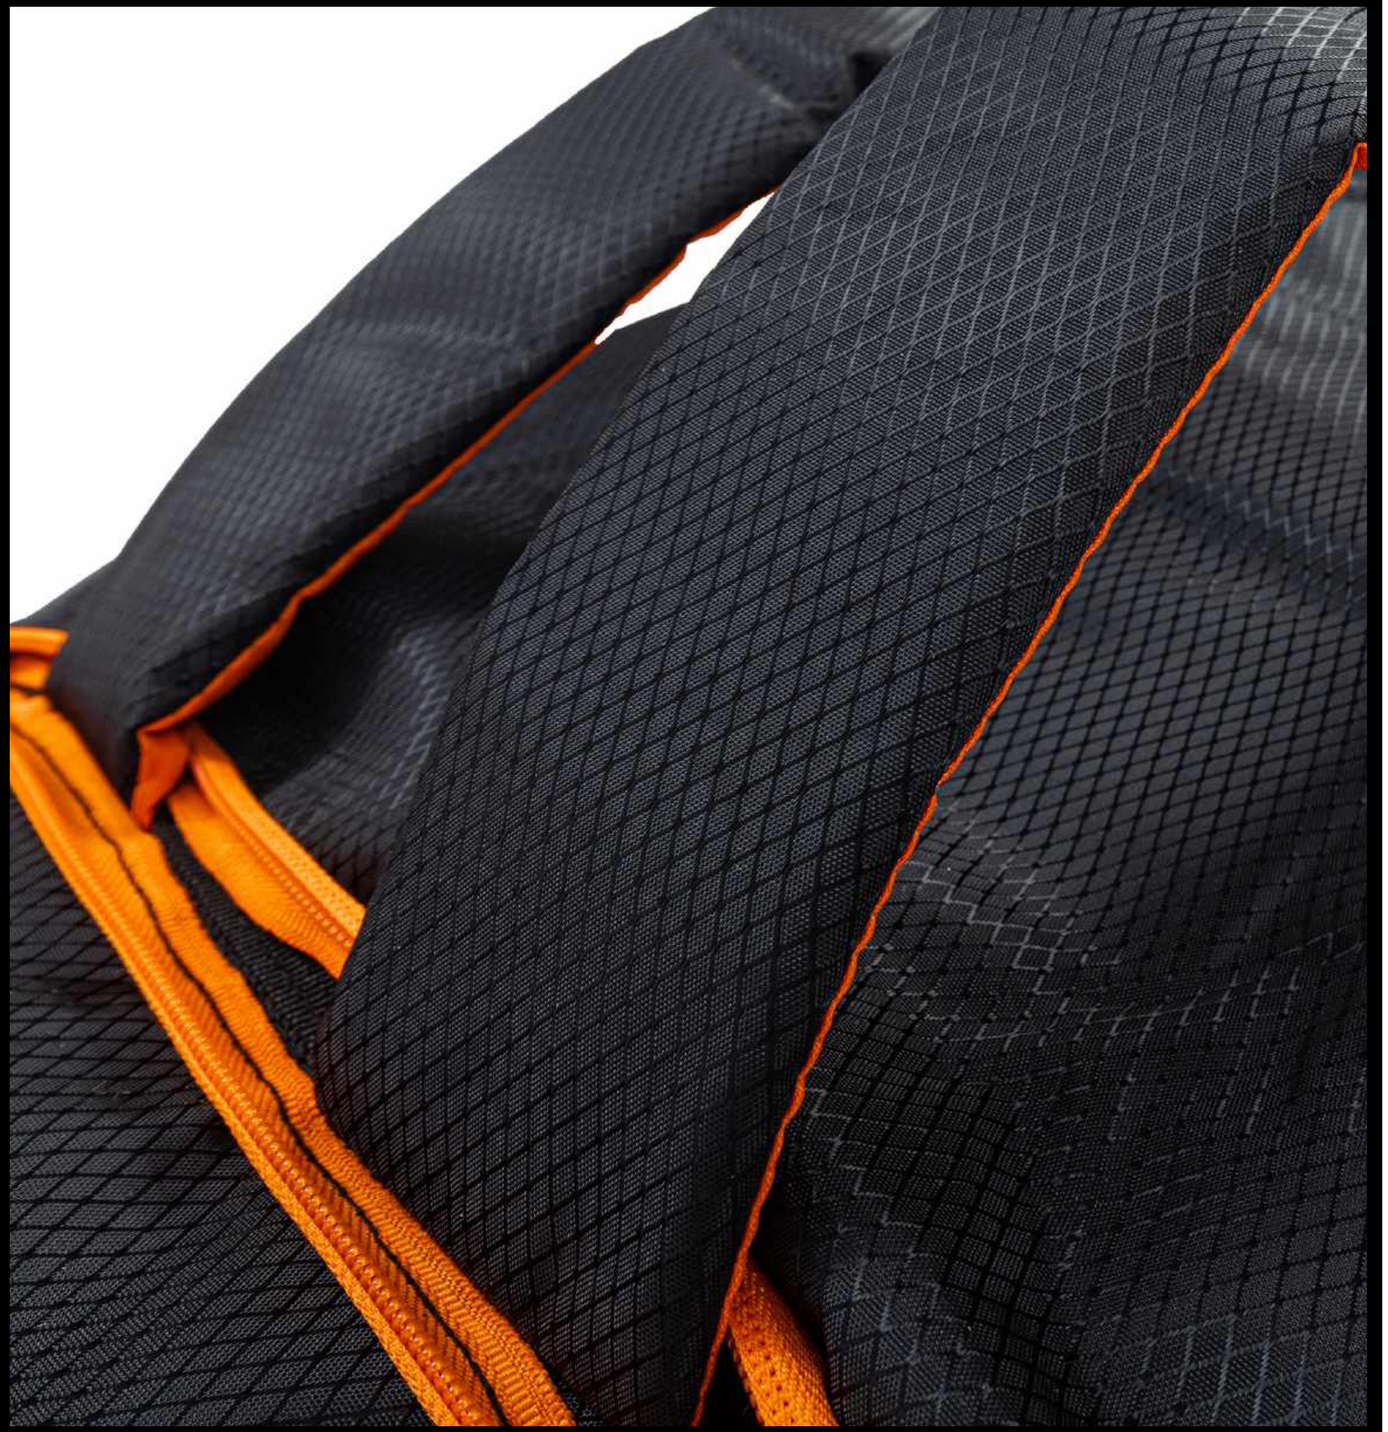

- Durable Ripstop + Heavy-duty fabric for reliable protection
- 420D Diamond nylon
- Reinforced handle for easy carrying
- ID-tag slot
- Size: 165 x 43 cm
- Capacity: 7L (1)

Tough on the outside, soft on the inside, with just enough room for your board, bindings, and extras. Designed for daily use, built to last. Because your board deserves a little love.

(1) See sizecharts page 34

(1) See sizecharts page 34

fear & Loading

Pack it all, leave nothing behind. The Fear & Loading Boardbag swallows your full setup and more, keeping everything safe and organized for the journey.

- Durable Ripstop + Heavy-duty fabric built for big trips
- 1680D nylon fabric + 420D Diamond nylon
- Wet/Dry compartments to separate gear
- Reinforced handle
- Backpack straps for easy carrying
- Heavy-duty zipper pullers for long-lasting use
- ID-tag slot
- Size: 165 x 35 x 18 cm
- Capacity: 104L (1)

Load it up, zip it tight, and if it gets heavy, switch to backpack mode for hands-free carrying. Built tough with travel-ready materials and smart compartments, this bag is made for long trips and great times on the mountain.

INSOLES
segment

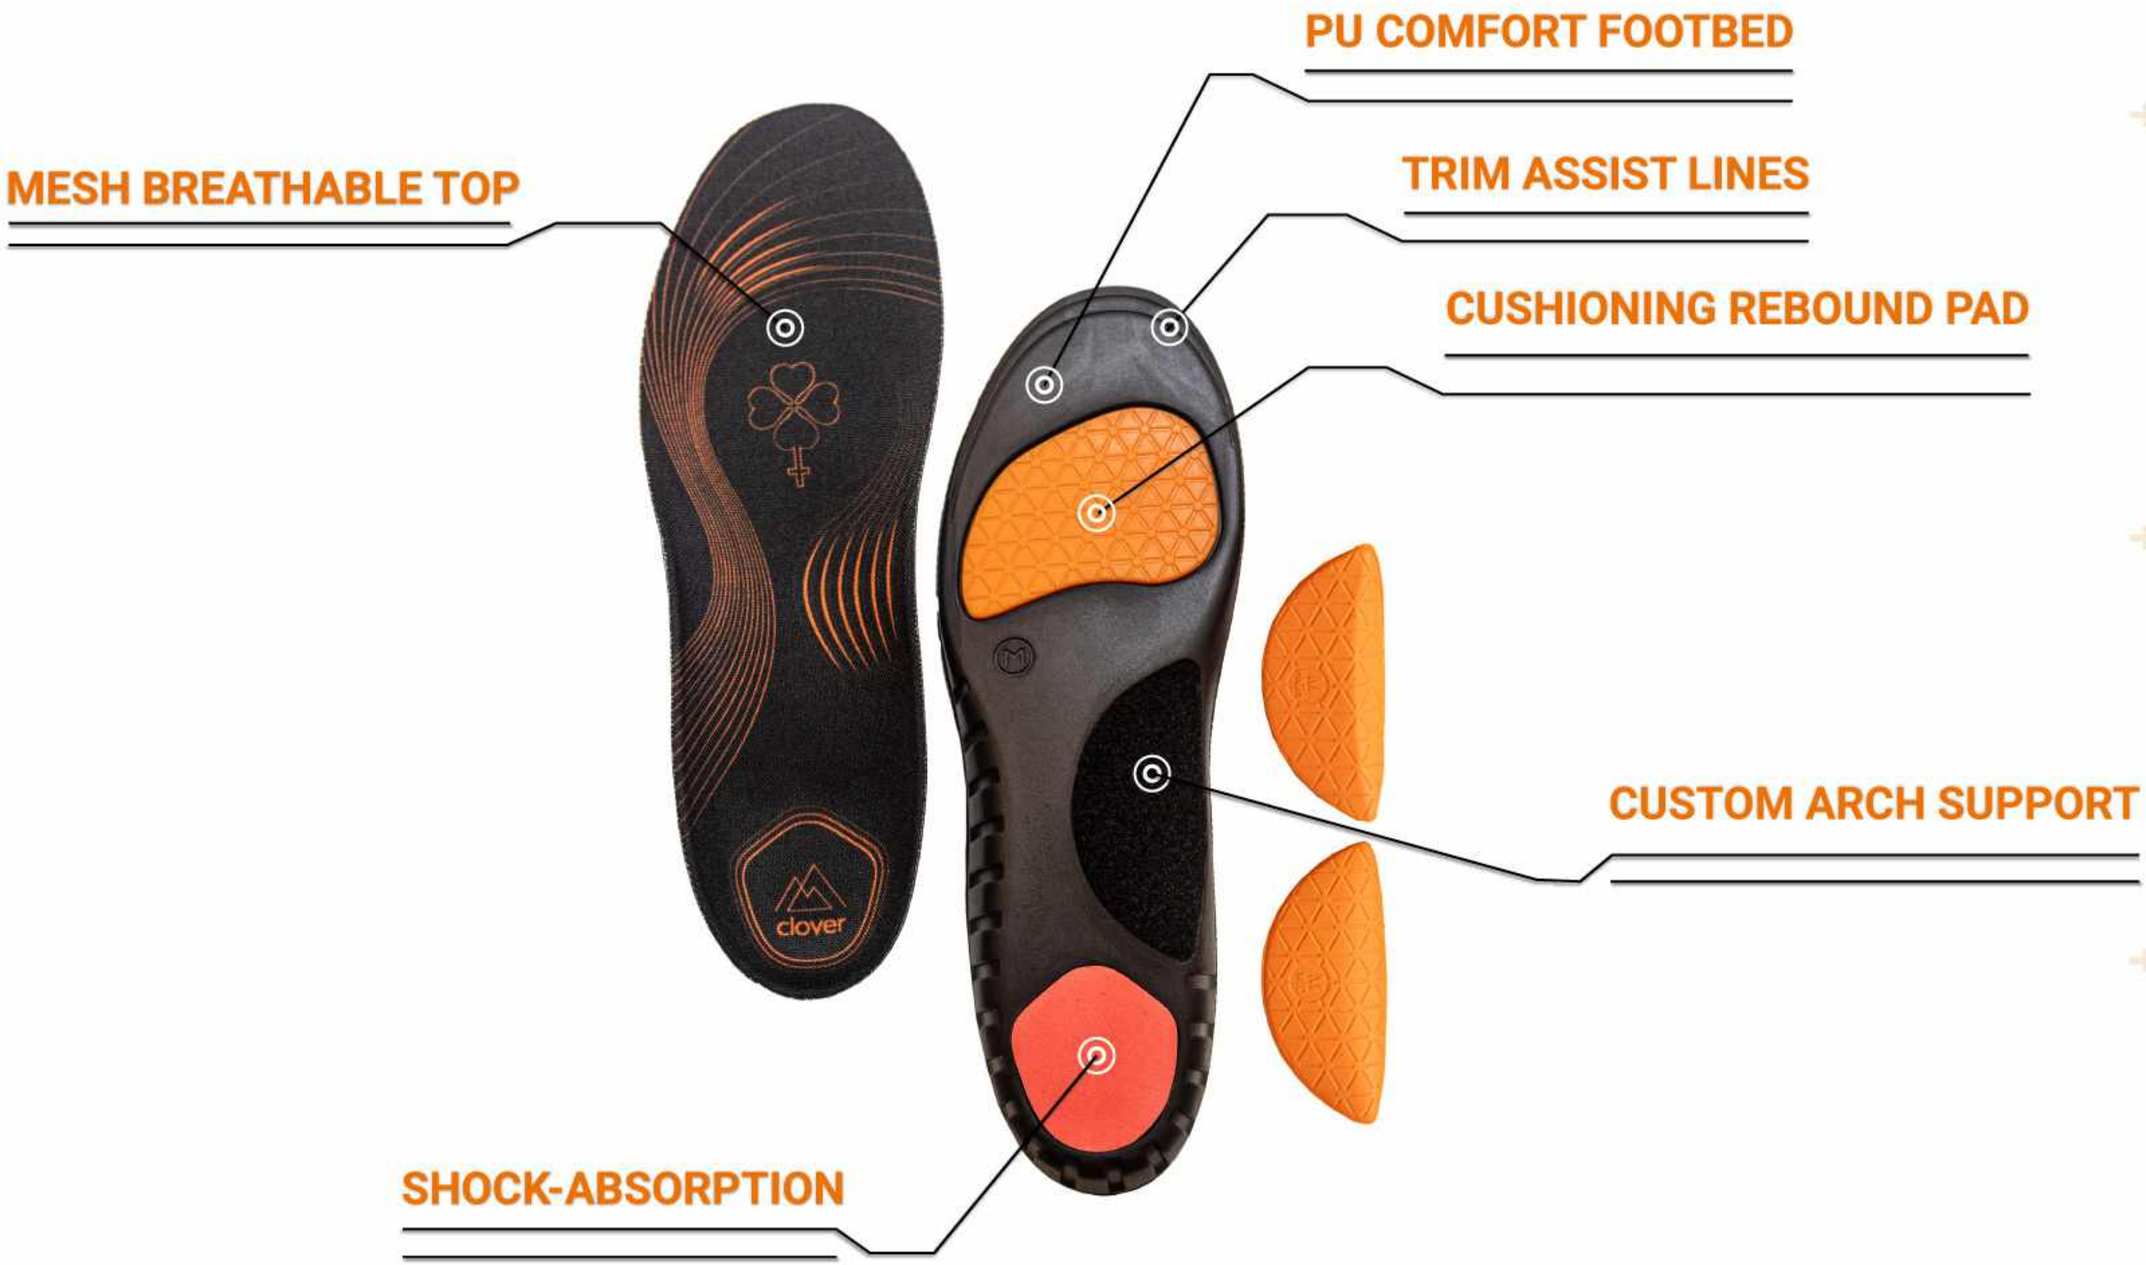

3in1 Arch insoles

Crafted with a mesh PU comfort footbed, they support your feet with every turn. The innovative 3-in-1 arch support adapts seamlessly to your foot’s natural shape, offering tailored support for low, mid, or high arches. A shock-absorbing heel pad softens impact, while the gel rebound cushioning restores energy and will provide comfort throughout a whole day on the mountain. No more tired feet.

- PU comfort footbed
- Custom arch support (low / mid / high) – 3-in-1 design
- Shock-absorbing heel pad
- Cushioning gel rebound insert
- Trim-assist guide lines
- Breathable mesh footbed
- sizes: XS, S, M, L, XL (1)

Designed with precision trim lines and a breathable mesh cover. Clover Insoles brings personalized comfort and fresh, all-day performance.

WAX
segment

Wax

Clover F1 Wax – Blue (-25°C / -12°C)
Blue, specially formulated for extreme cold. It provides a strong, reliable glide in sub-zero temperatures

Clover F1 Wax - Red (-12°C / -6°C)
Red, designed for chilly to mild temperatures. It offers a smooth, swift glide in cooler conditions

Clover F1 Wax – Yellow (-6°C / +18°C)
Yellow is built for speed, delivering a smooth, fast glide in a wide range of warmer conditions.

Clover 4x4 Wax – All Temp. (-10° / +10°)
The wax that works everywhere. The Clover 4x4 Wax – Orange is your all-round solution for variable snow and mixed conditions. Easy to apply, reliable in all terrains, and built for smooth, fast rides no matter the weather.

Clover Rub on Wax
Fast, simple, and effective. The Clover DragRace Rub-On Wax is your go-to solution when you want speed without the setup. Just rub it on, buff with the integrated cork pad, and you're ready to ride.

Easy to carry—fast prep for fast lines.
